## Audit Committee

<b>Meeting No.</b>	4	<b>Contact</b>	Rosemary MacKenzie, Council Administrator
<b>Meeting Date</b>	Monday, September 24, 2007	<b>Phone</b>	416-392-8021
<b>Start Time</b>	9:30 AM	<b>E-mail</b>	rmacken@toronto.ca
<b>Location</b>	Committee Room 1, City Hall		

---

Audit Committee		
Councillor Doug Holyday, Chair	Councillor Rob Ford	Councillor Anthony Perruzza
Councillor Mike Del Grande, Vice-Chair	Councillor John Parker	Councillor Karen Stintz

**Members of Council and Staff:** Please keep this agenda and the accompanying material until the City Council meeting dealing with these matters has ended. **The City Clerk's Office will not provide additional copies.**

**Special Assistance for Members of the Public:** City staff can arrange for special assistance with some advance notice. If you need special assistance, please call (416-392-8021), TTY 416-338-0889 or e-mail [rmacken@toronto.ca](mailto:rmacken@toronto.ca).

**Closed Meeting Requirements:** If the Audit Committee wants to meet in closed session (privately), a member of the committee must make a motion to do so and give the reason why the Committee has to meet privately. (City of Toronto Act, 2006)

**Notice to People Writing to the Committee:** The City of Toronto collects any personal information in your communication to Toronto City Council or its committees under the City of Toronto Act, 2006 and the City of Toronto Municipal Code.

The City collects this information to enable it to make informed decisions on the relevant issue(s). Individuals who submit letters and other information should be aware that any personal information in their communication will become part of the public record. The City will make it available to the public, unless the individual expressly requests the City to remove the personal information.

Direct any questions about this collection to the City Clerk's Office, City Hall, 100 Queen St. W. Toronto ON M5H 2N2 or by calling 416-392-8021.

**Declarations of Interest under the *Municipal Conflict of Interest Act*.**

**Confirmation of Minutes – June 15, 2007**

**Communications/Reports**

## **Management of Construction Contracts - Toronto Water and Sewer Emergency Repair Contracts**

(July 30, 2007) Report from the Auditor General

### **Recommendations**

The Auditor General recommends that:

1. The General Manager, Toronto Water, in consultation with the Deputy City Manager and Chief Financial Officer and the City Solicitor:
  - a. evaluate City business continuity and disaster management risks in contracting with a single contract provider for all City water and sewer emergency repairs;
  - b. evaluate the viability and impact of alternate procurement solutions such as a roster of contractors, or restricting bidding contractors to a limited number of districts; and
  - c. develop appropriate criteria for the standardized use of contractual incentives such as alternative liquidated damages provisions when emergency repairs are delayed and include such criteria in future City water and sewer emergency contracts.
2. The Deputy City Manager and Chief Financial Officer ensure the tendering process is complied with and a comparative summary of bids is developed and authorized. Copies of key sections including authorization and pricing sections of competitive bids should be retained by the Purchasing and Materials Management Division.
3. The General Manager, Toronto Water, in consultation with the City Solicitor, review the content of all standard Toronto Water emergency repair contracts in order to ensure that contract provisions are clear, consistent and enforceable.
4. The General Manager, Toronto Water, review payments to the contractor based on undocumented assumptions and informal agreements and where appropriate such payments be recovered.
5. The General Manager, Toronto Water, direct staff that any decisions, and in particular, decisions that involve financial commitments for contract terms which appear to be ambiguous, unclear or inconsistent only be made after consultation with the City's Legal Services Division and approval by the senior management. All such consultations and approval be documented.
6. The General Manager, Toronto Water, review the possibility of including criteria for emergency and non-emergency work in future contracts and obtaining separate rates for emergency and non-emergency work accordingly.

7. The General Manager, Toronto Water, ensure that where possible, estimated quantities contained in emergency repair contract tenders are reasonably accurate and are representative of actual quantities required to complete the contract. In addition, The General Manager in consultation with Purchasing and Materials Management, explore other procurement solutions for obtaining emergency repair services independent of fixed quantity estimates.
8. The General Manager, Toronto Water, take steps to develop policies and procedures for managing emergency repair contracts and ensure staff is appropriately trained.
9. The General Manager, Toronto Water, review 2006 and 2007 contractor payments for emergency repairs and take steps to determine and recover overpayments made to the contractor identified as part of the review.
10. The General Manager, Toronto Water, develop policies to ensure that:
  - a. Site Inspector's Daily Work Reports are prepared independently of contractor invoices and provide relevant details including services provided, calculations and measurements supporting payment; and
  - b. documentation supporting progress payments is reviewed in detail by supervisory staff.
11. The General Manager, Toronto Water, ensure that extra work is awarded through authorized change directives and that separate inspector reports are used for recording work pertaining to extra work orders.
12. The General Manager, Toronto Water, ensure that to the extent possible, all required work be included in the original contract and extra work orders be limited.
13. The General Manager, Toronto Water, develop a process for the periodic monitoring of contract expenditures and ensure that Purchasing by-law requirements for authorizing over-expenditures are complied with. Appropriate action is taken in circumstances where non-compliance of the by-law is identified.
14. The General Manager, Toronto Water, ensure contractor performance issues are consistently documented and monitored. Significant contractor performance issues that can not be resolved through the regular contract management process should be communicated to Purchasing and Materials Management for consideration in future contract award decisions.
15. The General Manager, Toronto Water, expedite the review and assessment of existing work management systems, including an assessment of the SAP Plant Maintenance Module. Following the selection of a work management system, its implementation should be expedited and the cost benefits of its integration with SAP be evaluated.
16. The General Manager, Toronto Water, develop procedures to ensure staff review repair requests to determine if the required work is covered under warranty.

17. The General Manager, Toronto Water Division, develop a process for District Contract Services and Operations & Maintenance staff to meet on a regular basis to discuss project status, and document and assess the priority of ongoing projects for re-assignment of pending projects to in-house staff.

### Financial Impact

The implementation of recommendations in this report will improve financial controls over the management of construction contracts. The extent of any resources required or potential cost savings resulting from implementing the recommendations in this report is not determinable at this time.

### Summary

The objective of this review was to assess whether procedures were in place to adequately monitor the award and management of Toronto Water and Sewer emergency repair contracts.

This audit is one of a series of audits conducted in relation to the management of construction or construction related activities. Certain of the issues identified in this review are similar to those identified in other audits.

This report contains 17 recommendations. The implementation of these recommendations will improve the way the City manages its contracts.

Issues identified during this review were discussed with senior management and, as a result, management is taking immediate action to implement our recommendations.

### Toronto Water Division, Review of Wastewater Treatment Program - Phase One

(July 16, 2007) Report from the Auditor General

### Recommendations

The Auditor General recommends that:

1. The General Manager, Toronto Water Division, review the current process to monitor employee attendance during night and weekend shifts and determine whether or not it is practical or cost-effective to conduct random checks of employee attendance during night and weekend shifts.
2. The General Manager, Toronto Water Division, require management review and approval of all overtime worked and ensure that all plant staff use appropriate documentation approved by management that clearly explain the reasons for overtime worked.
3. The General Manager, Toronto Water Division, in consultation with the Director, Policy, Planning, Finance and Administration and the Director, Pension, Payroll and Employee Benefits, develop overtime reports to meet the information needs of the managers responsible for reviewing overtime costs. Management should regularly review overtime reports to monitor overtime usage and costs and identify potential opportunities to reduce overtime.
4. The General Manager, Toronto Water Division, direct that detailed overtime analyses be performed to determine whether the amount of overtime is reasonable and necessary in the wastewater plants. Such overtime analyses should identify reasons for overtime and trends among work areas and positions within the plants.
5. The General Manager, Toronto Water Division, consult with the union the potential of adopting a common shift schedule for both the water filtration and wastewater plants that will reduce staff overtime.
6. The General Manager, Toronto Water Division, develop criteria for defining the exceptional circumstances where supervisors approve staff requests for changes to their scheduled vacation.
7. The General Manager, Toronto Water Division, ensure that the staff in the Toronto Water Division are aware of their responsibilities relating to the attendance management program and require that employee absenteeism is regularly monitored in accordance with City policy.
8. The General Manager, Toronto Water Division, ensure that:
  - a. divisional staff, independent of the payroll input process, review and verify the accuracy and completeness of payroll transactions; and
  - b. Toronto Water staff do not input their own payroll data into the payroll system.
9. The Chief Financial Officer and Treasurer take appropriate action to identify and recover payroll overpayments resulting from the incorrect use of payroll input codes prior to the enhancement of on-line system controls in August 2006.
10. The General Manager, Toronto Water Division, develop and implement standard

payroll procedures in the Toronto Water Division that require supervisory staff to review and approve a standard time sheet that captures all staff time and attendance.

11. The General Manager, Toronto Water Division, review the use of alternate rate assignments to ensure that such assignments are necessary and properly processed in accordance with policies and procedures as well as the provisions in the collective agreement.
12. The General Manager, Toronto Water Division, consider the possibility of reassigning payroll input duties to plant administrative staff.
13. The General Manager, Toronto Water Division, require that an evaluation of the use of the work management system be conducted following implementation of the system at each plant location. In addition, timely action should be taken to correct problems that are identified during the evaluation process.
14. The General Manager, Toronto Water Division, evaluate the feasibility of accelerating the timelines to implement the work management system at the wastewater plants.
15. The General Manager, Toronto Water Division, expedite the review and assessment of the existing work management systems and the SAP Plant Maintenance Module and consider the feasibility of creating an interface between the selected system and the SAP Financial Information system.
16. The General Manager, Toronto Water Division, develop a single time sheet to be used for payroll purposes and assess the feasibility to also use this time sheet for the work management system.

### **Financial Impact**

The implementation of recommendations in this report will improve financial controls over employee attendance, overtime and payroll processing. The extent of any resources required or potential cost savings resulting from implementing the recommendations in this report is not determinable at this time.

### **Summary**

The objective of this review was to assess whether the City's wastewater treatment program was being managed economically, efficiently and in compliance with City policies and legislative requirements. Due to the scope of the work involved, this review was divided into two phases. Phase One of this review focused on controls over payroll processing, overtime and attendance management, as well as the use of technology in managing maintenance activities. Phase Two of our review will address contract management and payment processing.

Our review identified financial control weaknesses in processing payroll, managing overtime costs and monitoring employee attendance. We also found that technology was not fully utilized by plant staff to manage maintenance activities. In our view, the more effective use of technology would likely reduce repair and resultant payroll overtime costs. Issues identified during this review were discussed with senior management and, as a result, are taking immediate action to implement our recommendations.

## Internet Usage Review

(July 31, 2007) Report from the Auditor General

### Recommendations

The Auditor General recommends that:

1. The Chief Information Officer implement a user authentication system for all users accessing the Internet.
2. The Chief Information Officer, in consultation with the Executive Director of Human Resources Division and the City Solicitor, implement systematic Internet usage monitoring for compliance with the City's Acceptable Use Policy, including:
  - a. developing criteria for Internet use that may not be in compliance with the policy, particularly relating to Internet time, bandwidth usage and visits or attempts to visit inappropriate sites;
  - b. utilizing appropriate analysis tools to generate exception reports identifying users with Internet activity deemed to be inappropriate according to established criteria;
  - c. providing Divisional management with detailed reports and technical support to facilitate review of apparent violations of the City's Acceptable Use Policy;
  - d. establishing written procedures outlining the types and frequency of management reports on Internet usage and the responsibility for review and follow-up of such reports; and
  - e. communicating to all City staff reiterating the City's Acceptable Use Policy, clarifying the responsibility of the City and users, and advising of the procedures in place to monitor compliance with the Policy.

3. The Chief Information Officer conduct an ongoing review of top sites visited that are likely for personal use, have highly automated activity, or carry security risks such as instant messaging or email and determine whether further site restrictions are warranted.
4. The Chief Information Officer take appropriate steps to ensure Internet connections of all City computers are consistently configured so that Internet logs record all Internet activity of all users but exclude visits to City internal sites.

### Financial Impact

The implementation of recommendations in this report will improve the monitoring for compliance with the City's Acceptable Use Policy. It would also improve system efficiency, minimize system security risks, and reduce personal use. The extent of any resources required to implement the recommendations in this report is not determinable at this time.

### Summary

The objective of this review was to assess compliance with the City's Acceptable Use Policy with respect to employee Internet usage pertaining to personal use, visits to inappropriate sites and excessive use of resources.

Our review indicated that controls appear adequate in restricting access to inappropriate Internet sites and activities using excessive computing resources. However, there are inadequate controls in monitoring excessive personal use at the individual level. Our review found that approximately 200 users or two per cent of all users appear to have spent excessive time on the Internet for personal use and not in compliance with the Acceptable Use Policy. Management needs to implement system changes and proactive measures to monitor compliance with the Acceptable Use Policy.

### Children's Services Division – Review of the Administration of Child Care Fee Subsidy

(June 30, 2007) Report from the Auditor General

### Recommendations

The Auditor General recommends that:

1. The General Manager, Children's Services Division, review the policies and procedures relating to the processing of subsidy applications and ensure that all such policies and procedures are current, relevant and consistently applied. An effective quality assurance process be implemented and steps taken to address instances of non-compliance.
2. The General Manager, Children's Services Division, review the specific criteria relating to the frequency of detailed financial reviews of child care centres. The frequency of the reviews be tied to the level of risk such that centres which appear to be less well managed would be reviewed more often. During ongoing financial and annual budget review, consideration be given to reviewing any management letters prepared by independent audit firms.
3. The General Manager, Children's Services Division, ensure divisional policies for granting of subsidies are in compliance with Council's direction of first come first serve. The General Manager, Children's Services Division, develop a monitoring system to review granting of subsidy to ensure applicants are processed according to their order of priority on the ward waiting list.
4. The General Manager, Children's Services Division, ensure that contact information for applicants waiting for subsidy is kept sufficiently current in order to allow for subsidy to be granted to eligible applicants on ward waiting lists on a first-come first-serve basis.
5. The General Manager, Children's Services Division, develop a business case to consider the costs and the benefits of Toronto Children's Services Operating Criteria.
6. The General Manager, Children's Services Division, review the potential implementation of an information system which allows for the electronic exchange of information between the Division and its operators.
7. The General Manager, Children's Services Division, review the process for the accounting of subsidy overpayments with a view to ensuring that all such amounts are accounted for appropriately.

### **Financial Impact**

The implementation of recommendations in this report will improve the administration of child care subsidies. The extent of any resources required or potential cost savings resulting from implementing the recommendations in this report is not determinable at the present time.

### **Summary**

The objective of this review was to assess the extent to which Toronto Children's Services has adequate management controls in place to ensure subsidies are administered in a cost effective manner and in compliance with relevant legislation and City policies and procedures.

Our review found that the provision of child care services for children in the City of Toronto is complex, costly and challenging to administer. Even though this review identified some issues which should be addressed, Children's Services is well managed. The issues identified during

this review were discussed with senior management and as a result the majority of the audit recommendations are in the process of being addressed.

## Sinking Fund - 2006 Audited Financial Statements

(August 31, 2007) Report from the Treasurer

### Summary

The purpose of this report is to present the City of Toronto's Sinking Fund Financial Statements for the year ended December 31, 2006 to the members of the Audit Committee. These statements have been presented to and approved by the Sinking Fund Committee.

Sinking fund assets as at December 31, 2006 amounted to \$620.4 million (2005 - \$666.4 million). These assets represent amounts held to discharge sinking fund debenture debt of \$2.2 billion (2005 - \$1.9 billion) issued by the City and maturing in various years between 2007 and 2021. Additional contributions will be received during this period from the City for debentures issued for municipal purposes and the Toronto District School Board for debentures issued for educational purposes.

## Business Improvement Areas - 2006 Audited Financial Statements

(August 31, 2007) Report from the Treasurer and the General Manager, Economic Development, Culture and Tourism

## Summary

The purpose of this report is to present the 2006 audited financial statements of twenty-eight Business Improvement Areas (BIAs) operated by Boards of Management and related audit management letters to the members of the Audit Committee.

The twenty-eight financial statements along with appropriate management letters attached to this report have been approved by the Boards of Management of BIAs. Financial statements for the remaining twenty-six BIAs are either in the process of being prepared, audited, awaiting responses to audit management letters or being held pending Board approval. These remaining financial statements and management letters, upon completion of their respective audits and Board approval, will be tabled for information by the members of the Audit Committee.
