

Date: April 28, 2009

To: Public Works and Infrastructure Committee

From: Toronto Pedestrian Committee

Subject: **Roncesvalles Avenue – Street Improvements
Class Environmental Assessment Study – Schedule ‘B’**

Committee Recommendations:

The Toronto Pedestrian Committee recommended to the Public Works and Infrastructure Committee that:

1. the Toronto Pedestrian Committee be included in the review of future road projects, particularly those with streetcar stop alterations; and
2. given that the parking supply in the recommended alternative is greater than the observed peak demand, the next phase of design work investigate the possibility of removing additional parking spaces in low demand areas in order to widen sidewalks or provide bicycle parking.

Decision Advice and Other Information:

The Toronto Pedestrian Committee endorsed the general Roncesvalles Avenue plan.

Background:

The Toronto Pedestrian Committee meeting on April 28, 2009 considered a communication (March 4, 2009) from John P. Kelly, General Manager, Infrastructure Planning, Transportation Services, respecting the second public meeting and public open house for Roncesvalles Avenue Class Environmental Assessment Study.

Speaker:

Mr. John Kelly, General Manager, Infrastructure Planning, Transportation Services Division, addressed the Committee and submitted diagrams and photographs.

City Clerk

Betty Pereira
Item 1

Attach.
