CONDOLENCE MOTION

Moved by: Councillor Michelle Berardinetti

Seconded by: Councillor Chin Lee

Toronto residents were shocked to learn that communities on the north-west coast of Japan were devastated by a massive earthquake followed by tsunami waves this past March 11th. Amid heroic rescue efforts, the deterioration of some nuclear facilities has augmented the magnitude of the disaster.

Torontonians have joined fellow citizens across Canada and the international community to assist Japanese rescue and rebuilding efforts. Residents across Toronto are in solidarity with the people of Japan and wish to see them overcome the tragic events of March 11th.

The City Clerk is directed to convey through the Consulate General of Japan in Toronto, and on behalf of the Members of Toronto City Council, our sincere sympathy to the people of Japan.
