User Fee Changes - Highlights

- Parks, Forestry & Recreation is proposing new permit fees for sports fields, children and youth fee in priority centres and fee increases in accordance with Council Approved User Fee Policy.
- Increased fees for Culture Activities to bring fees in line with other similar attractions. These fees were last increased in 2008.

Key Issues for 2012 and Beyond

- Managing increased 311 call volumes with reduced staffing levels
- The AHO's revenue outlook for 2012 2014 anticipates some decrease in Federal/Provincial funding with continuing effort to strengthen housing investments
- Court Services continues to work with Toronto Police Services to identify opportunities to minimize the off-duty cost of having police officers attend trials
- The implementation of the Early Resolution initiative, Bill 212
 effective March 2012, will assist in simplifying court processes and
 improving service to the public
- Deferred hiring of Paramedics
- Managing EMS call volume increases of approximately 4% or 7,000 emergency transports each year with decreasing staff levels

Key Issues for 2012 and Beyond

- Sustaining and expanding the urban forest and management of the Emerald Ash Borer infestation
- Funding the operating impacts of PFR capital projects and managing the state of good repair backlog
- Increased demand on Welcome Policy recreation subsidy
- The increase in crisis incidents, creates additional pressure on the stretched resources of the Community Crisis Response Team
- Gaps in the provincial and federal systems of supports result in shelters being used as long-term supportive housing and support systems of last resort, for which they are not adequately funded
- Inadequate provincial funding for basic shelter services
- Lack of affordable and supportive housing

Key Issues for 2012 and Beyond

- Continued high unemployment with the Toronto unemployment rate higher than the Canadian and Ontario averages
- As a result of changes to the eligibility criteria for Employment Insurance (EI) and ongoing changes in the labour market, fewer than 25% of city residents now qualify for EI
- The Provincial Government's Commission for the Review of Social Assistance in Ontario is expected to deliver its final report by June 2012 with specific recommendations and a concrete action plan for reforming the social assistance system in Ontario
- Re-engineering the child care system to address issues and opportunities created by the Province's full-day kindergarten program
- Working with the Province of Ontario to address base funding issues and to strengthen the funding model for child care.
- Alternate Service Delivery for Museums

- The not-for-profit sector in Toronto will continue to experience an increased demand for services and competition for revenue, and reduced government support
- Key issue for the AOCCs is their ability to continue maintaining the level of service and performance in the face of increasing expectations and demand for service. Community Centres budget reductions in administration core funding have been difficult to achieve on a centre to centre basis and future reductions will impact on services levels
- Third party funding for the AOCCs is unpredictable making planning for a 3-year horizon (medium term) difficult
- Engaging in a range of service efficiency reviews and implementation of review recommendations for:
 - PFR, SSHA, TEMS, SDFA, LTCHS, CS

2012 Capital Overview

Capital Overview

- The Toronto EMS is responsible for maintaining 45 stations, 5 district offices and headquarters as well as communications systems and medical equipment in a state of good repair
- The LTC homes are aging which exerts additional pressure on the LTC capital
 maintenance state of good repair program to address client health, safety, security
 and comfort; existing assets valued at approximately \$5.5 billion
- The provincial capital renewal strategy requires all LTC homes with a B or C structural classification to be redeveloped or retrofitted over the next 10-15 years
- Maintain PFR existing assets which include the following: 7,527 hectares of parkland and natural areas, 580km of trails and pathways, 63 indoor and 59 outdoor pools, 183 water play areas, 40 arenas and 51 artificial ice rinks, 134 community centres, 5 golf courses, 2 ski and snowboard centres, 4 stadiums, 858 playgrounds, and 265 tennis and sports pads

Capital Overview

- SSHA is responsible for maintaining 17 facilities, 13 of which are shelter sites, with an asset value of \$90 million
- Stewardship of 96 heritage properties (Ft. York, Casa Loma, Todmorden Mills, etc)
- 72 BIAs invest in streetscape enhancements (20,000 businesses invest over \$24 m annually in upgrading city and promotion)
- New developments including Fort York Visitor Centre and Guild Inn Revitalization
- TESS Capital Program consists of development and implementation of Web-Based IT technology solutions in the areas of employment services, financial assistance and social supports, that will streamline business processes, produce efficiencies and improve productivity
- Children's Services implementing CSIS 3 technology to improve front-facing service delivery to both families and operators

PFR:

- High dient expectations and unmet community needs (PFR)
 - > Continued population growth and changing demographics results in:
 - pressure on aging facilities;
 - public demand for equitable distribution of facilities and services;
 - need for increased funding for ongoing operation and maintenance;
 - need for funding and operating resources for new capital initiatives;
 and
 - new projects without source of funding are unlikely to be included in capital plan.
 - Need for a strategy for new capital projects from development that create a renewal fund

PFR:

- Aging Infrastructure and State of Good Repair (SOGR)
 - Inability to address significant SOGR needs
 - Emphasis on SOGR limits opportunity for service improvement and growth projects
 - 2011 year end value of SOGR backlog is estimated at \$237.398 m
 - Projected SOGR backlog is expected to be \$363.120 m in 2016 and \$362.266 m by 2021
- Limited ability to absorb unplanned capital expenditures resulting from severe weather events
