Please read the attached letter on letterhead

February 10, 2012

To Whom It May Concern:

On behalf of the over 12,000 members of Local 4400, Toronto Education Workers, I would like to convey our dismay at the massive sell-off of Toronto Housing Corporations stock. We urge you to save as many of the homes as is humanly possible. The inhabited homes of those 700 single-dwelling houses are providing important stability to the persons who live there and, as importantly, to the communities in which they are located.

We have members / retired members who live both in the high-rises and in the single dwelling homes. We believe that all should be well housed. We understand that there are systemic, structural funding issues that have caused maintenance to fall behind. The solution is not to get rid of the people living in the homes in order to sell them. The solution is to fight for the funding from the provincial government – they are the body that downloaded the housing AND the problems.

Sincerely,

Katie McGovern
Recording & Corresponding Secretary
