Subject: Etobicoke York Community Council Meeting
CC: <admin@westonvillagebia.com>

Further to my email yesterday requesting a public meeting before approval of the staff recommendations outlined in Item EY13.3, my request was based on a brief summary of the staff report. I've now had an opportunity to read the full staff report on the Weston 2021 Revitalization Strategy and have satisfied myself that the recommendation is to endorse the revitalization approach as identified in the report and is subject to further community consultations when City staff present and prioritize initiatives and next steps.

Accordingly, I am withdrawing my request for a further community meeting prior to approval of the referenced staff report. I have discussed my herein email with Masum Hossain, chair of the Weston BIA and he is in agreement with my above withdrawal. We both look forward to the revitalization of Weston and appreciate the significant resources being allocated to this project.

Yours truly,
Michael J. McDonald
