813, 815 and 817 Sheppard Avenue West - Official Plan Amendment and Zoning Amendment Application - Preliminary Report

Date: September 13, 2012
To: North York Community Council
From: Director, Community Planning, North York District
Wards: Ward 10 – York Centre
Reference Number: 12 235992 NNY 10 OZ

SUMMARY

This application proposes to amend the Official Plan and former City of North York Zoning By-law No. 7625 to permit the development of a 9-storey, mixed-use building with 69 residential units and 142m² of commercial space at grade, at 813, 815 and 817 Sheppard Avenue West. There are 67 parking spaces proposed underground.

This report provides preliminary information on the above-noted application and seeks Community Council's directions on further processing of the application and on the community consultation process.

It is intended that a community consultation meeting be scheduled in consultation with the Ward Councillor. A Final Report and Public Meeting under the Planning Act to consider this application is targeted for the second quarter of 2013 provided any required information is submitted by the applicant in a timely manner.
RECOMMENDATIONS

The City Planning Division recommends that:

1. Staff be directed to schedule a community consultation meeting for the lands at 813, 815 and 817 Sheppard Avenue West together with the Ward Councillor.

2. Notice for the community consultation meeting be given to landowners and residents within 120 metres of the site.

3. Notice for the public meeting under the Planning Act be given according to the regulations under the Planning Act.

Pre-Application Consultation
A pre-application consultation meeting was held with the applicant to discuss complete application submission requirements on April 18, 2012.

ISSUE BACKGROUND

Proposal
The applicant is proposing a nine-storey (28.95-metre), 69-unit, mixed-use building on the south side of Sheppard Avenue West, east of Faywood Boulevard. A total of $5,534m^2$ of gross floor area is proposed which would result in a density of 3.32 times the area of the lot. Of the 69 residential units, 40 are proposed to be one-bedroom units and 29 are proposed to be two-bedroom units. The 9th floors contains amenity space and a mechanical room. No residential units are proposed on the 9th floor. Two commercial units comprising $142m^2$ are proposed at grade. A total of 67 parking spaces are proposed on three underground levels, 11 of which would be used by residential visitors. There is no parking proposed for non-residential uses. A total of 56 bicycle parking spaces are proposed. Additional site statistics are presented in the Application Data Sheet (Attachment 5).

The applicant is proposing to demolish the three existing single detached dwellings on the development site.

Site and Surrounding Area
The site is located on the south side of Sheppard Avenue West, between Faywood Boulevard and Gorman Park Road. The site has a frontage of approximately 36 metres on Sheppard Avenue West, a depth of approximately 44 metres and an area of $1,665m^2$. The site is generally flat.
Land uses surrounding the site are as follows:

*North:* commercial uses on Sheppard Avenue West and single detached and semi-detached dwellings on Blairville Road.
*West:* the Toronto Heschel School (2.5 storeys).
*South:* a City-owned park.
*East:* two single detached dwellings and a 6-storey mixed-use, mid-rise building on Sheppard Avenue West.

**Provincial Policy Statement and Provincial Plans**

The Provincial Policy Statement (PPS) provides policy direction on matters of provincial interest related to land use planning and development. The PPS sets the policy foundation for regulating the development and use of land. The key objectives include: building strong communities; wise use and management of resources; and protecting public health and safety. City Council’s planning decisions are required to be consistent with the PPS.

The Growth Plan for the Greater Golden Horseshoe provides a framework for managing growth in the Greater Golden Horseshoe including: directions for where and how to grow; the provision of infrastructure to support growth; and protecting natural systems and cultivating a culture of conservation. City Council’s planning decisions are required to conform, or not conflict, with the Growth Plan for the Greater Golden Horseshoe.

Staff will review the proposed development for consistency with the PPS and for conformity with the Growth Plan for the Greater Golden Horseshoe.

**Official Plan**

The site is located within the area covered by the Sheppard West/Dublin Secondary Plan and is designated *Mixed Use Area B* on Map 23-1. The objective of the Secondary Plan is to encourage and maintain a diversity of residential, institutional, service commercial, office and open space uses along the corridor stretching from Bathurst Street in the east, towards Allen Road and the Downsview Subway Station in the west.

In *Mixed Use Area B* of the Sheppard West/Dublin Secondary Plan, the preferred form of mixed use development contains ground floor commercial uses with upper floor residential uses. The Secondary Plan provides greater densities for development parcels that provide a mix of commercial and residential uses and which have a frontage on Sheppard Avenue West greater than 30 metres. Given the proposed mix of uses and 36 metre frontage, the maximum permitted density for the site under the Secondary Plan is 2.0 times the area of the lot. The maximum building height under the Secondary Plan is 5 storeys.

In addition to the policy requirements of the overall Official Plan, the Sheppard West/Dublin Secondary Plan also contains further measures requiring buffering between new development on Sheppard Avenue West and properties to the rear of these sites which are designated *Neighbourhoods*. These measures include the provision and
maintenance of suitable fencing and a 1.5 metre landscape strip along the property lines between new developments and Neighbourhoods. Also, the height of any new building is not to exceed the horizontal distance separating the building from adjacent lands designated Neighbourhoods. This horizontal distance cannot be less than 9.5 metres.

This portion of Sheppard Avenue West is identified on Map 2 of the Official Plan as an Avenue. Avenues are corridors along major streets intended for incremental reurbanization to create new residential, commercial, and retail opportunities while improving the overall pedestrian environment, the appearance of the street and accessibility to transit for community residents.

Zoning
The subject lands are zoned One Family Detached Dwelling Fourth Density Zone (R4), as indicated in Attachment 3. The R4 zoning permits detached dwellings and accessory buildings as well as various recreational and institutional uses.

Site Plan Control
An application for Site Plan Control approval is required and has been submitted.

Reasons for the Application
The Sheppard West/Dublin Secondary Plan allows the subject lands to be developed with a mixed use building having a maximum density of 2.0 times the area of the lot and a building height of five storeys. An application to amend the Sheppard West/Dublin Secondary Plan is required as the applicant is proposing a nine storey, mixed use building with a density of 3.32 times the area of the lot.

An amendment to the former City of North York Zoning By-law No. 7625 is required to permit the proposed mixed use development at the proposed height and density and to establish appropriate performance standards.

COMMENTS

Application Submission
The following reports/studies were submitted with the application:
- Planning Rationale
- Shadow Study
- Stormwater Management Report
- Phase I Environmental Site Assessment
- Arborist Letter
- Traffic Impact Study
- Toronto Green Standards Checklist

City staff are reviewing the application for completeness.
Issues to be Resolved

On a preliminary basis, the following issues have been identified:

- The appropriateness of the increase in height and density;
- Built form, massing and angular planes as they relate to the Sheppard Avenue West streetscape;
- Compatibility with the surrounding neighbourhood including appropriate building transitions to the stable residential neighbourhoods to the south of the site;
- The appropriateness of the vehicular and service access to the site from Sheppard Avenue West, as well as any operational issues related to parking demand and/or traffic management;
- The adequacy of the outdoor amenity space at grade and its relationship to the building; and
- The Toronto Green Standard Checklist has been submitted by the applicant and is currently under review by City staff for compliance with the Tier 1 performance measures.

Additional issues may be identified through the review of the application, agency comments and the community consultation process.
