

方卓怡 市議員 **Paula FLETCHER**  
Councillor Toronto-Danforth Ward 30

PG 10.15  
NEW BUSINESS

January 5, 2012

Councillor Peter Milczyn, Chair  
Planning and Growth Committee

Dear Chair and Members,

Today's presentations have been very stimulating. The City has many areas to review in order to remain economically viable within the larger GTA region and this is a good time to raise an issue of an area where there are pressures as well as opportunities.

It is the South of Eastern employment area. This area has the West Donlands immediately to the west and the Port Lands, now under the acceleration project, immediately to the South. It is very close to downtown.

A pro active approach that realizes the interconnections of this area with the immediate geography as well as its strategic nature for employment is required.

It would be timely to set in place a planning framework that clearly articulates the nature of this area and would deal constructively with applications as they come forward to the satisfaction of the city, the applicant, local residents and the future of the Waterfront development.

I would ask that the Committee forward this request to the Chief Planner for consideration.

Sincerely

*Paula Fletcher*
