**Re: By-law Harmonisation**

To the Committee,

Regarding the harmonising of the City's bylaws, the Swansea Area Ratepayers Association (SARA) and Group (SARG) are of the position that converting R1S zones to R zones is not appropriate.

As you know Swansea has one of the largest R1S geographic zones in the City and the matter is of great importance to us we therefore request an opportunity to meet with staff to discuss and resolve this matter.

We would also like to thank the staff for meeting with us. We recognise that the by-law has been generally improved, however, we are still reviewing the by-law and reserve the right to make additional comments.

Please keep us advised.

Sincerely,

Nicholas Singh  
President, SARA
