To whom it may concern,

My wife and I are writing this letter with regards to requesting a height exemption for a portion of an existing wood fence. The purpose of the fence is to improve the aesthetics of the property by covering an existing cement block garage adjacent to the fence in the neighbouring property. We would like to request a fence exemption of 8 feet in height and approximately 30 feet in length. We would appreciate the approval of this request since the cement block garage already exists at this height and prevents us from appreciating our outdoor space as it is not maintained and an eye sore. We are only requesting approval for the portion of the fence that will cover this cement wall. This will improve the properties aesthetics for all neighbours in the area and will not prevent or encroach on the adjacent owner’s ability to appreciate their property since it is not in their line of sight. Thank you for reviewing our request.

Sincerely,

Gus and Maria Constas
