Re PG 27.4 Mid-Range Building Performances Standards-Monitoring

City Council Meeting No.41 November 13, 2013

TORONTO
CITY CLERK'S OFFICE
2013 NOV 13 AM 11 50

Dear Mayor Ford & Members of Council.

The Thompson Orchard Community Association is writing in support of the letter from the Confederation of Resident & Ratepayers Association of Toronto (see attached).

Furthermore TOCA is requesting inclusion, as Stakeholders, in any consultations anticipated to complete the comprehensive review of the Mid-Rise Building Performance Standards as part of the Avenues & Mid-Rise Building Study that was passed by Council in July 2010.

In addition we request being provided with notification of Planning & Growth Management Committee's considerations (including special meetings) and decisions and notices / notifications of any subsequent consideration \ decision of City Council or any Committee that may affect the outcome of performance standards in the Avenues & Mid-Rise Building Study.

Thank you

Michael Green, Chair

Thompson Orchard Community Association (TOCA)

Dear Mayor Rob Ford & Members of Council

**Re: PG27.4: Mid-Rise Building Performance Standards-Monitoring
City Council Meeting No. 41 November 13, 2013**

CORRA, the Confederation of Resident and Ratepayer Associations in Toronto, is writing to seek an amendment to the recommendation for agenda item PG27.4 requesting to extend the monitoring of the Mid-Rise Building Performance Standards.

CORRA respectfully asks:

1. That resident and ratepayer groups/associations be included as Stakeholders in any consultations anticipated to complete the comprehensive review of the Mid-Rise Building Performance Standards, as part of the Avenues & Mid-Rise Buildings Study that was passed by Council in July 2010.

CORRA is requesting that resident and ratepayer groups and their organizations be treated in the same manner as other stakeholders. It is desirable and appropriate to include and identify the concerns and comments from resident and ratepayer groups and we ask that they be recognised as part of this extended monitoring period.

2. That ALL stakeholders, including resident and ratepayer associations, be provided with notification of Planning & Growth Management Committee's considerations (including special meetings) and decisions and notice/notification of any subsequent consideration/decision of City Council or any Committee that may effect the outcome of performance standards in the Avenues & Mid-Rise Buildings Study.

Thank you,

Eileen Denny

Vice Chair, CORRA
