Dear City Council,

We write concerning upcoming item TE27.66, the West Queen West Planning Study: Queen Street West Between Bathurst Street and Roncesvalles Avenue.

In our view, this item strongly deserves the support of Council. This historic stretch of Toronto's most dynamic street is world-renowned for its miles of Victorian mixed-use buildings. For generations, these buildings have supported hundreds of small businesses and their adjacent residential neighbourhoods. That synergy makes this corner of our city the very paradigm of active- and public-transit-oriented, human-scale urbanism. It is therefore a matter of city-wide importance to ensure that passing market trends do not undermine the integrity of this largely intact district. The proposed Planning Study is the instrument to avoid future remorse.

We also urge Council to ensure there is funding for the Planning Study in City Planning's 2014 Budget. The real estate market is evolving swiftly, and significant development pressures are already visible. It is therefore our opinion that the

Planning Study should proceed without significant delay.

Sincerely yours,

Jessica Wilson
