CORRA Update
Telecommunication Towers & Antennas
December 15, 2013

To Members, Resident and Ratepayer Executives:
A number of issues concerning telecommunication towers and antennas were recently brought to CORRA’s attention that may be of concern to resident and ratepayer groups.
Following our review of the various reports and a number of related agenda items in tomorrow’s Council meeting, CORRA provided the following submission to Council for consideration.
Please consider writing to Council at clerk@toronto.ca to support CORRA’s submission or write to express your group’s position concerning the telecommunication tower and antenna issues.

Details of each agenda item are provided below following CORRA’s letter.
Council is Meeting tomorrow December 16, 2013 starting at 9:30am at City Hall.

Confederation of Resident & Ratepayer Associations in Toronto

December 15, 2013

Mayor Rob Ford
Deputy Mayor Norm Kelly and Members of Council
Toronto City Hall
100 Queen Street West
Toronto, ON M5V 2N2

Attention: Ms. Marilyn Toft
Email: clerk@toronto.ca

Dear Mayor Rob Ford, Deputy Mayor Norm Kelly and Members of Council

PG29.8: City’s Protocol for Telecommunication Towers and Antennas
CORRA, the Confederation of Resident and Ratepayer Associations in Toronto, is writing in response to issues recently brought to our attention concerning telecommunication towers and antennas. In reviewing the issues CORRA would like to draw Council’s attention to the related telecommunication items on the agenda – PG29.8, PW27.10 and GM26.8 as noted above that should be considered concurrently.

CORRA recognizes the recommendations in PG29.8 strengthens the protocol used to evaluate the location and consultation process as it relates to telecommunication tower and telecommunication antenna proposals within the City. And the amendments will regulate towers/antennas of 15M and less that were previously excluded.

Should Council consider the amended protocol as proposed in PG29.8 to be adequate, CORRA is asking:

1. To ensure the amended proposed protocol applies to the City’s local boards or agencies including Toronto Hydro that may have the authority or permission to install telecommunication tower and telecommunication antenna proposals within the City;

2. To ensure that any private agreements the City may contract to permit the installation of telecommunication tower and telecommunication antenna proposals incorporate the amended proposed protocol requirements in the negotiated contracts; and

3. To refuse the permission to install telecommunication tower and telecommunication antenna proposals of 15M or less on the City’s public right-of-way, a use that is currently not permitted.

CORRA’s request will provide some level of predictability for concerned residents in evaluating the location of telecommunication tower and antenna proposals where the City has some measure of control. Council adopting such measures will demonstrate to other operators wishing to install such equipment to respect the City’s protocol.

Please keep CORRA informed of Council’s decision and any subsequent decisions on this matter.

Thank you,

Eileen Denny
Vice Chair, CORRA
Confederation of Resident and Ratepayer Associations in Toronto
