April 8, 2013

To Chairperson Crisanti and EYCC Members,

Our association, CodeBlueWestTO, does not support Councillor Grimes in his decision to defer acceptance of the Mimico-by-the-Lake Secondary Plan.

We agree that further work is needed to address key issues which stop the plan from providing a framework for true revitalisation; however, after spending 6 years of tax payer time and money, we do not believe that an additional two months will result in a resolution of these issues. A deferral at this time will not bring meaningful change to the plan. Moreover, additional direction from council is clearly required.

We are part of a growing group of Toronto residents who are concerned about the development of Toronto's western waterfront. We have organized a considerable opposition to this plan, and feel the deferral may be an attempt to limit our effectiveness as a citizen group to drive meaningful change to the plan.

On behalf of CodeBlueWestTO and the 678 + residents we represent, we ask council to consider that we do not support Councillor Grimes' upcoming motion to be submitted to Etobicoke York Community Council on April 9<sup>th</sup>, 2013..

Regards,

Kyle Gojic,  
Vicki Bourgeois  
Megan Norfolk  
On behalf of the CodeBlueWestTO team
