From: City Clerk

Re: MM45.6 - On-line Listings of Registered Speakers (Deputants)

I am writing to advise Council that the work requested by this motion has already completed as part of the City Clerk's website at www.toronto.ca/council.

The list of speakers are displayed online on agenda items when there is significant number of speakers. The list is also displayed on the monitors in the main committee rooms. The list of speakers can be viewed by both desktop and mobile users.

While we don't routinely post the list of speakers when there are only one or two deputants, we are prepared to do in future since the technology already exists.
