Re:

Official Plan/Municipal Comprehensive Reviews: Mimico GO Triangle

The Planning and Growth Management Committee recommends that:

1. City Council request that the Chief Planner and Executive Director, City Planning continue the community consultation process on the revitalization study for the Mimico GO Station Triangle area, to commence in January 2014. The intent of the community consultation process is to discuss and determine, with the local community, area businesses and the Ward Councillor, the following:
 - a. improvements to vehicular access within the area for the movement of goods and employees;
 - b. public realm enhancements to reduce conflicts between pedestrians and vehicles;
 - c. provision of amenities within the area to create an attractive environment for existing and new employment uses; and
 - d. improved pedestrian and vehicular access to the Mimico GO Station, including strategies for parking and pick-up and drop-off."
2. City Council redesignate the lands known as the "Mimico Triangle" and the Judson street portion to a Regeneration Areas designation.
3. City Council request the Medical Officer of Health to work with staff from Municipal Licensing and Standards and the Ministry of the Environment, on issues related to 29 and 145 Judson Street, and report back to Etobicoke York Community Council for its meeting on January 15, 2014.

The above recommendations of the planning and growth management committee is supported by Salvatore Cofone, President and owner of Etobicoke Noodles Inc., O/A Queen's Pasta at 66 Newcastle Street adjacent to the Mimico Go Station Triangle Area.
