January 18, 2013

Toronto and East York Community Council
100 Queen St W
Toronto M5H 2N2

Dear Chair and Members,

NEW BUSINESS:  Re-open TE19.34

SUMMARY:

At the October 10, 2012 meeting, Toronto and East York Community Council recommended approval of a construction staging area at John and Mercer. Subsequently a number of meetings have taken place with local residents, Transportation staff and our office seeking to resolve a number of challenges created as a result of the construction staging in the community.

The following changes are the result of these discussions and are supported by residents, Transportation staff and the developer.

RECOMMENDATIONS:

That the Toronto and East York Community Council:

1. Reopen Item TE19.34, headed "Construction Staging Area - John Street and Mercer Street", adopted at its meeting on October 10, 2012, for further consideration.

2. Amend the recommendations in the report (September 18, 2012) from the Acting Director, Transportation Services, Toronto and East York District by:
   a. amending Recommendation 1 to read as follows:
      "1. Enact the proposed regulations outlined in the Revised Appendix "A" attached to the letter (January 18, 2013) from Councillor Adam Vaughan respecting the Construction Staging Area – John Street and Mercer Street."; and
   b. deleting Recommendation 2.

Yours truly,

Adam Vaughan
City Councillor, Ward 20
