**SUMMARY**

This staff report is about a matter for which the Toronto and East York Community Council has delegated authority from City Council to make a final decision.

To report on the refusal to issue a permit by the Municipal Licensing & Standards based on the extension application for a boulevard café permit located on the commercial frontage of 100 Simcoe Street.

**RECOMMENDATIONS**

Municipal Licensing and Standards recommends that the Toronto and East York Community Council:

1. Deny the application for the proposed boulevard café on the commercial frontage of 100 Simcoe Street based on the application not meeting the bylaw requirements as outlined in Chapter 313-36.

**Financial Impact**

There are no financial implications resulting from the adoption of this report.
DECISION HISTORY

An application for a boulevard café permit located at 100 Simcoe Street was received on February 24, 2013, from the business owner representing Michael's on Simcoe. The application submitted was seeking permission to establish a boulevard café for 32.50 square meters, which would accommodate approximately 20 patrons.

In order to maintain the required 2.13 metre pedestrian clearway outlined in former City of Toronto Municipal Code, Chapter 313 and the Vibrant Streets Document, right of way permits for the occupation of the sidewalk and or boulevard are reviewed when streetscape reconstruction, utility installations or a change of business ownership occurs to ensure that the permits continue to conform to the current regulations.

One of the provisions of the Code is that boulevard café areas shall provide a 2.13 meter clearance from the curb and/or any street furnishings (i.e. tree planters, poles, and benches) in order to maintain adequate pedestrian space.

The existing sidewalk fronting 100 Simcoe Street is 4.43 metres in width. There are tree pits located in front of the establishment that would reduce to pedestrian clearway to 1.05 meters from the edge of the tree pit to the café fence. The concept of a pedestrian clearway is not only to maintain the permitted distances but also to ensure pedestrians and assisted mobility needs have adequate access.

On April 18, 2013, a refusal letter was sent to the business owner representing 2277550 Ontario Inc advising the applicant that the boulevard café application was denied due insufficient sidewalk space.

A letter dated April 23, 2013 was received by Municipal Licensing & Standards from the business owner representing 2277550 Ontario Inc to appeal the decision of the denial for a boulevard café.

COMMENTS

In accordance with the provisions of the former City of Toronto Municipal Code 313-36, boulevard cafes shall provide 2.13 meters clearance from the curb and/or any street furnishings (i.e. tree planters, poles, and benches) in order to maintain adequate pedestrian space and to provide a clear pathway for pedestrian traffic.

Council has approved the Vibrant Streets Document in order to create streetscapes where pedestrian traffic moves freely and unencumbered and to ensure that the placement of street furnishings, cafes and marketing areas and other features is better aligned to support pedestrian traffic.
