Dorset Park Neighbourhood Association (DPNA)

Dorset park is a place where even after living in Toronto for 22 years, I could never be ashamed of referring to it as my home.

I believe that although the Dorset park community is flourishing in many ways, our community is still in need of support. Programs and services for residents are an integral aspect for our community, to help benefit and engage our youth, children, adults and seniors.

Dorset park is full of culture and diversity, with a myriad of different ethnicities, races and religious beliefs to coexist.

With heartwarming compliments that you couldn't ever resist, it's a community full of life and serenity, A place where all are welcomed. I'll go as far back as To saying that Dorset park is my home, as a youth I've moved around to different parts of the city and have grown to love Dorset park out of the many, Programs, workshops and services need to be implemented within our community. Dorset park is a place with so much potential, I strongly believe that this will assist in creating brighter Ideas and possibilities.
