July 29, 2014

To: Chair and Members of Etobicoke-York Community Council  
From: Councillor Frances Nunziata  
Re: Ward 11 Poll for Speed Humps – Bexley Crescent, Mulock Avenue and Pendeen Avenue

SUMMARY:
At recent community meetings, interest has been expressed to my office for the installation of speed humps along Bexley Crescent, Mulock Avenue and Pendeen Avenue. Transportation Services is in the process of conducting traffic studies on these streets; however, the studies will not be completed in time for the August meeting of Etobicoke York Community Council. As a result, in the absence of direction at this time, any further action related to the installation of speed humps, if warranted, would not be possible until the next term of Council.

To avoid unnecessary delay, it is important that authority be given now for a poll to be carried out by the City Clerk to gauge support for traffic calming on these residential streets.

RECOMMENDATIONS:

That Etobicoke York Community Council:

1. Request that the City Clerk (Polling Registry Services) survey eligible households on Bexley Crescent, Mulock Avenue and Pendeen Avenue to determine if property owners/occupants support the installation of speed humps.

Yours Sincerely,

Frances Nunziata  
Councillor, Ward 11, York South-Weston
