Dear Community Council:

Re: Item EY32.40 – Investigation of Impacts Related to ML Ready Mix

We are counsel to ML Ready Mix Concrete Inc., the owners of 29 Judson Street, Toronto. We are writing to provide our comments for Community Council's consideration in connection with the above noted item which will be considered on April 8, 2014.

We have reviewed the report authored by the Medical Officer of Health, dated March 20, 2014. We would note that "the analysis of air quality data in the area indicated that concentrations of various contaminants largely met the acceptable standards and are comparable to the levels in other neighbourhoods within the City" [emphasis added]. Furthermore, "the results of the air quality modelling indicate that concentrations of various pollutants in the vicinity of the ML Ready Mix facility are generally below the provincial standards and are comparable to the concentrations observed in other neighbourhoods in the City" [emphasis added]. Lastly, "all modelled pollutant concentrations were within the applicable standards and guidelines" [emphasis added].

Please provide our firm with a copy of any correspondence received for this item, and notice of Community Council's decision.

Yours truly,
DAVIES HOWE PARTNERS LLP
