Etobicoke York Community Council
399 The West Mall
Toronto ON
M9C 2Y2

Subject: EY 33.13 and EY 33. 14 on May 13th 2014

Dear Council Members,

The Mimico Residents Association is in support of the residents of Judson Street who are opposing the conclusions of the Minister of Environment Health Report on the effects of ML Ready Mix cement batching operations and its associated transportation of materials on the local terrestrial and aerial environment.

We support and encourage the Judson Street residents to continue to report infractions by ML Ready Mix of operating standards. It must be noted that ML Ready Mix not only disregards its ECA obligations, but also continually ignores the City's By-Law with regard to permitted hours of operation and private vehicle parking.

As well, we support all efforts by the City to move ML Ready Mix, which is a legal non-conforming cement batching operation, from this residential location to a non-residential industrial site.

Sincerely,

Aaron Gilmour
Vice President
Mimico Residents Association
