ISSUE BACKGROUND

Transportation Services, North York District, was requested by residents to review the feasibility of installing parking prohibitions during the day on the east and south sides of Threadneedle Crescent between Dexter Boulevard and Myers Lane. It had been reported that vehicles parked on both sides of Threadneedle Crescent during the day by commuters was obstructing access to residential driveways and restricting the flow of two-way traffic.

COMMENTS

Threadneedle Crescent is classified as a local road with a regulatory speed limit of 50 km/hr.

Currently, parking is permitted for maximum period of three hours on both sides of Threadneedle Crescent.

Staff have verified the residents' concerns that vehicles parked on both sides of the road have been obstructing access to residential driveways and have been restricting the safe flow of two way traffic. It appears that many of the vehicles parked at this location for long periods during the day belong to students of the Canadian Chiropractic College on Leslie Street.

In view of the above, Transportation Services recommends the installation of no parking, from 10:00 a.m. to 3:00 p.m., Monday to Friday, on the east and south sides of Threadneedle Crescent between Dexter Boulevard and Myers Lane.

The Ward Councillor has been advised of the recommendation of this staff report.
