Dear Chair Milczyn and Members of Planning & Growth Management Committee

Re: PG33.13: Mid-Rise Buildings - Monitoring Update

Planning & Growth Management Committee Meeting No. 33 May 29, 2014

Teddington Park Residents Association Inc. (TPRA) wrote to Council in November 2013 in support of CORRA's request to include resident and ratepayer associations in consultations in completing the review of the Mid-Rise Building Performance Standards in the Avenue & Mid-Rise Buildings Study. TPRA also asked for Notice.

City Council on November 13th, 2013 directed that resident groups be consulted to complete the Mid-Rise Building Performance Standards.

TPRA did not receive Notice of the Mid-Rise Buildings - Monitoring Update that is part of PGMC's agenda PG33.13. In reviewing the report dated April 28, 2014, there have been no consultations with resident associations/groups. To date TPRA has not been notified of any such consultations.

TPRA is now asking that the will of Council be respected by including TPRA in the consultations/meetings/feedback necessary to complete the review and that TPRA be provided Notice as to when the consultations will take place.

Thank you,

Hilde Reis-Smart, Secretary

Teddington Park Residents Association Inc.

cc. Eileen Denny, President TPRA

William Roberts, CORRA Chair
