CONDOLENCE MOTION

Moved by: Councillor Janet Davis
Seconded by: Councillor Mary Fragedakis

Members of Toronto City Council are deeply saddened to learn of the passing of Wendy Catherine Hunter, on March 28, 2014.

Wendy was a woman who made a difference in the health of many who call Toronto our home. Toronto was the City of Wendy's birth and passing and where she touched many lives.

At the Toronto East General Hospital School of Nursing, Wendy graduated in the class of 1966. Wendy made many lifelong friends there. Later in life Wendy served as president of the Toronto East General Hospital School of Nursing Alumnae.

At Centennial College, Wendy taught paramedics. As a teacher she was loved and admired for her clarity, intelligence and patience.

Wendy was also a well respected massage therapist. At Centennial College she established the massage therapy program and also taught massage therapy there for many years. Wendy became the president of the College Council for the College of Massage Therapists of Ontario.

True Davidson Acres, one of our City run long term care homes, also benefitted from Wendy's tireless commitments to better health. She served for many years as chair of the True Davidson Acres Home Advisory. Wendy is remembered for her humour, kindness and assertiveness.

Wendy Hunter will be dearly missed by all her friends and family and Gracie, her canine companion. She is fondly remembered by those who were privileged to work alongside her to protect and improve health services in Toronto.

The City Clerk is requested to convey, on behalf of the Members of Toronto City Council, our sincere sympathy to Wendy Hunter's family, friends, and colleagues.
