## **INTRODUCTION and GRANTS IMPACT ANALYSIS**

Toronto Arts Council's 2014 allocation from the City of Toronto was \$17,713,540, representing an increase from the previous year of \$1.8 million in the grants budget (\$16,079,470) and \$200,000 in the arts services and operations budget (\$1,634,070). The funding increase has already made a far-reaching impact on TAC, Toronto's artists and the city. It has allowed TAC to offer stability to existing organizations while providing significant new support for culturally diverse arts organizations, emerging arts groups and community-engaged arts projects, with a focus on the inner suburbs and youth.

TAC approved its Priorities for New Funding in 2013 following confirmation of increased investment from the City, based on extensive community consultations and on the City Council approved Creative Capital Gains report.

TAC's new funding priorities break down into 3 major grants program priorities and 14 subsidiary goals.

In the first two years of increased funding, progress has been realized as follows:

### **Priority #1: Growth & Sustainability**

#### **Goals:**

1. Increase core funding to arts organizations meeting highest standards of excellence
2. Increase project funding in all disciplines to arts organizations and individual artists meeting highest standards of excellence
3. Create and implement strategies to address funding inequities among arts organizations

#### **Progress to Dec 2014:**

**Goal #1:** Over \$2 million additional funds added to core operating program, annually.

**Goal #2:** Over \$1.4 million increased funding allocated in project grants to arts organizations and individual artists.

**Goal #3:** TAC Board and staff have identified \$6 million funding gap required to address funding inequities; new funds allocated since 2013 have reduced this gap by almost \$3 million.

### **Priority #2: Community Connections**

#### **Goals:**

1. Youth led arts projects to be a funding priority
2. Community engaged art projects in inner suburbs will be a funding priority
3. Culturally diverse youth artists and arts organizations will be given enhanced opportunities to enter the funding stream
4. Outreach and community revitalization projects will be eligible for additional funding
5. Partnerships with Toronto's civic institutions (libraries, heritage, housing, parks, tourism, immigrant settlement agencies, education, neighbourhood and community centres) will be forged or strengthened to ensure greater neighbourhood access to arts programming

#### **Progress to Dec 2014:**

**Goal #1:** Toronto Arts Council has partnered with Artreach Toronto to increase access and opportunities for cultural participation for youth across the city, including \$300,000 funding annually for youth-led arts projects.

**Goal #2:** In partnership with four leading community arts organizations, TAC has developed Platform A to support a shared vision of seeding sustainable, high-quality community arts practice, and provide increased opportunities and access to the arts for youth and communities through an innovative microgrants program: \$300,000 per year for 3 years.

**Goal #3:** In addition to ArtReach and Platform A, Toronto Arts Council has added support for audio recording to its Music Creation program, responding to demand from Toronto's music community. Successful grant applicants include many young musicians from communities outside the downtown core: \$200,000 per year.

**Goal #4:** Targeted Enhanced Funding - Recognizing that it takes significant resources to undertake high engagement activities that involve youth, diverse and underserved communities in the arts, this program is available to TAC operating clients that have already begun to engage with communities outside the downtown core: 60 grants totalling \$595,000 in 2013 and 2014.

**Goal #5:** New grants programs in partnership with Toronto's civic institutions focus on neighbourhoods outside the downtown and include: Animating Historic Sites and Museums, Artists in the Library, Artists in the Schools: in the first two years 34 grants totalling \$750,000 have been awarded.

### **Priority #3: Innovation & Partnerships**

#### **Goals:**

1. Respond to exceptional one-time events and opportunities
2. Build local arts community capacity
3. Provide opportunity for funding interdisciplinary work
4. Provide seed or development funds for new and innovative artistic initiatives developing new platforms for national and international recognition of Toronto artists
5. Facilitate mentorship and professional development opportunities for arts professionals
6. Stimulate increased investment in Toronto arts through strategic inter-sectoral partnerships

#### **Progress to Dec 2014:**

**Goal #1:** Open Door funding process developed to respond to exceptional one-time events and opportunities: \$545,000 granted to 11 projects in 2014.

**Goal #2:** With TAC funding, Platform A offers a microgrants program granting up to \$1,000 to emerging and newcomer artists and collectives to foster new arts projects, practice skills, and incubate creative ideas with mentorship from established artists and organizations in the field: 88 grants totaling \$79,870 in first two years.

**Goal #3:** Interdisciplinary programs introduced by TAC since 2013 include: Animating Historic Sites and Museums, Artists in the Library, Artists in the Schools, ArtReach Toronto and ArtsVest. New interdisciplinary programs being introduced in 2015 include Indigenous Arts Projects and Arts in the Parks.

**Goal #4:** Open Door funding process (see goal 1) also responds to this goal.

**Goal #5:** In partnership with the Banff Centre, TAC has created the Cultural Leaders Lab to offer mentorship & professional development opportunities for Toronto's arts leaders. In the first year of the program, 18 cultural leaders were selected to participate.

**Goal #6:** TAC funded ArtsVest, a national sponsorship training and matching incentive program created by Business for the Arts. In 2013 and 2014, 148 Toronto arts organizations participated in the program partnering with over 200 local businesses and raising over \$2 million in sponsorship funds. In addition TAC's partnership programs developed with TDSB, the Toronto Public Library, and Toronto's Heritage Sites have all brought significant investment through in-kind resources or cash contributions.

# OVERVIEW

## STRATEGIC FUNDING

In response to increased investment from the city as well as consultations with the community, TAC identified areas where strategic investment was required to address areas not covered through the core discipline programs.

**Community Connections: Enhance support for community engaged arts initiatives with a focus on youth arts and expanded audience access in diverse communities and outside the downtown core.**

TAC's adjudication process revealed that while the vast majority of organizations (80%) funded through TAC arts discipline programs offer outreach and/or youth engagement programs, the scope of this work has been limited due to lack of funding. Strategic investment in this area is allowing TAC to respond to new initiatives, groups and artists as well as be a catalyst for increased activity among existing organizations.

**Innovation & Partnership: Lead change through targeted funds, develop and encourage partnerships, leverage timely opportunities, and encourage and be responsive to innovation.**

Develop new and innovative funding programs and partnerships offering artists and arts organizations the ability to respond to exceptional opportunities and incubate new ideas, projects and initiatives. Funds are being strategically allocated to act as a catalyst for increased provincial and national investment in Toronto from all levels of government and the private sector.

## ARTS DISCIPLINE FUNDING

Supporting the city's artists and arts organizations through an established and effective granting program has been Toronto Arts Council's core business for 36 years. These discipline-specific programs provide assistance for ongoing operations or for specific projects.

**Operating** funding provides ongoing support to arts organizations for both their operations and programming. There are two streams of operating funding: multi-year and annual.

Applicants to a multi-year operating program submit financial and programming information for three-year period. A funding level is recommended for the three-year period and is paid in annual installments, subject to the availability of funds. Release of funds in years two and three is conditional upon receipt and approval of financial and programming reports. Multi-year assessment reduces the administrative workload of funded organizations by eliminating the annual application process and increases an organization's ability to engage in long-term planning by providing confirmation of funding for a three-year period. An annual assessment stream remains available to organizations not eligible for the multi-year stream and to organizations that prefer to continue with annual assessment.

TAC has aligned its multi-year schedule with that of Ontario Arts Council and Canada Council for the Arts, since most organizations that apply to TAC also apply to these funders. The rollout is staggered by discipline over three years. TAC also worked with Ontario Arts Council on the development of our respective multi-year applications and reporting requirements, in order to make it possible for organizations to prepare material that can be submitted to both funders.

**Project** funding provides one-time support for specific projects. It is not meant to cover operating or ongoing expenses. Project funding is provided to organizations and collectives and, through some programs, to individual artists.

### Program Categories:

- ▶ **Community Arts:** Operating funding and Project funding for organizations and collectives
- ▶ **Dance:** Operating funding for organizations and Project funding for organizations, collectives and individual artists
- ▶ **Large Institutions:** Operating funding for organizations.

- ▶ **Literary:** Operating funding and Project funding for organizations and collectives and the Writers program for individual artists
- ▶ **Music:** Operating funding and Project funding for organizations and collectives and the Music Creation program for individual artists
- ▶ **Theatre:** Operating funding and Project funding for organizations and collectives and the Playwrights program for individual artists
- ▶ **Visual/Media Arts:** Operating funding and Project funding for organizations and collectives and the Visual Artists program and Media Artists program for individual artists

## ASSESSMENT AND ALLOCATIONS PROCESS

All TAC grants are reviewed and approved by TAC's Board of Directors following recommendations from assessment committees, juries or, in the case of some strategic partnerships, partner organizations.

All TAC funding programs have an application form and an application deadline date. When an application is submitted, it is processed and reviewed by staff to confirm eligibility. In some cases, applicants meet with TAC staff to discuss their applications and/or to receive help with the application procedure prior to adjudication.

Applications are then sent for review to the appropriate peer adjudication body. Both committees and juries follow a two-stage adjudication process for funding.

1. **Assessment:** Each applicant is assessed using publicly stated criteria. Based on this assessment, each applicant is given a rating to establish an assessment priority ranking.
2. **Allocation:** The assessment priority ranking becomes a factor in decision of whether, in the case of projects, to recommend funding, or whether, in the case of Operating, to increase, maintain or decrease an organization's funding level. For Operating, the percentage of funding an organization is already receiving from TAC when compared to comparable organizations is also a factor. Project funding to both organizations and individual artists is zero-based; i.e. past funding history is not a factor in determining whether or not funding is recommended or the level at which the funding is recommended.

Following Board approval, all applicants receive a funding notification letter that provides information about the funding recommendation and, if applicable, information about the appeals process.

## LOAN FUND

Toronto Arts Council administers a Loan Fund that provides short-term bridge financing to arts organizations. The Loan Fund, a rotating fund of \$176,162, is a program that puts the City of Toronto in the vanguard with respect to its support of the arts. Toronto is one of only three North American cities and the only Canadian city to provide this much needed and very appreciated service to its arts community. Two loans were made in 2014.

## OPERATIONS

TAC's operations grant supports staff salaries and benefits, offices, overhead, jury fees, adjudication costs, websites, grants database and outreach tools. As TAC's grants scope and responsibilities have significantly increased, TAC's operations responsibilities and costs are also increasing. With growing public awareness of increased arts funding comes increased responsibility to evaluate the effectiveness of new spending and programs offered to date, to plan for future implementation and to communicate the results with City Council, the arts community and the public.

In 2014 Toronto Arts Council received an increase of \$200,000 to its operations budget bringing the total budget to \$1,634,070 or 10% of its total budget. This increase has supported the following:

- The development and implementation of our new on-line grants management system that is increasing access to TAC grants, improving efficiency of the grant allocation process, and significantly improving the reliability, availability and comprehensiveness of arts data.
- The development and implementation of a new web-site offering more information to the public about TAC's grants program and the impact of granting throughout the city.

Working within its limited operations resources, TAC has achieved great success addressing a major increase to granting responsibilities at the lowest possible cost through partnerships with other

organizations. By the end of 2014, many of the new grants programs and funding streams described above were introduced in partnership agreements where TAC shared adjudication and evaluation responsibilities.

New Partnerships in 2014:

- TAC Cultural Leaders' Lab - a partnership with the Banff Centre that is providing 18 Toronto arts and culture leaders with the opportunity to participate in an innovative learning process including an intensive one-week retreat at The Banff Centre.
- Panamania - a partnership with the Pan Am games cultural component offering support to Toronto arts organizations presenting programming during the Pan Am Games.

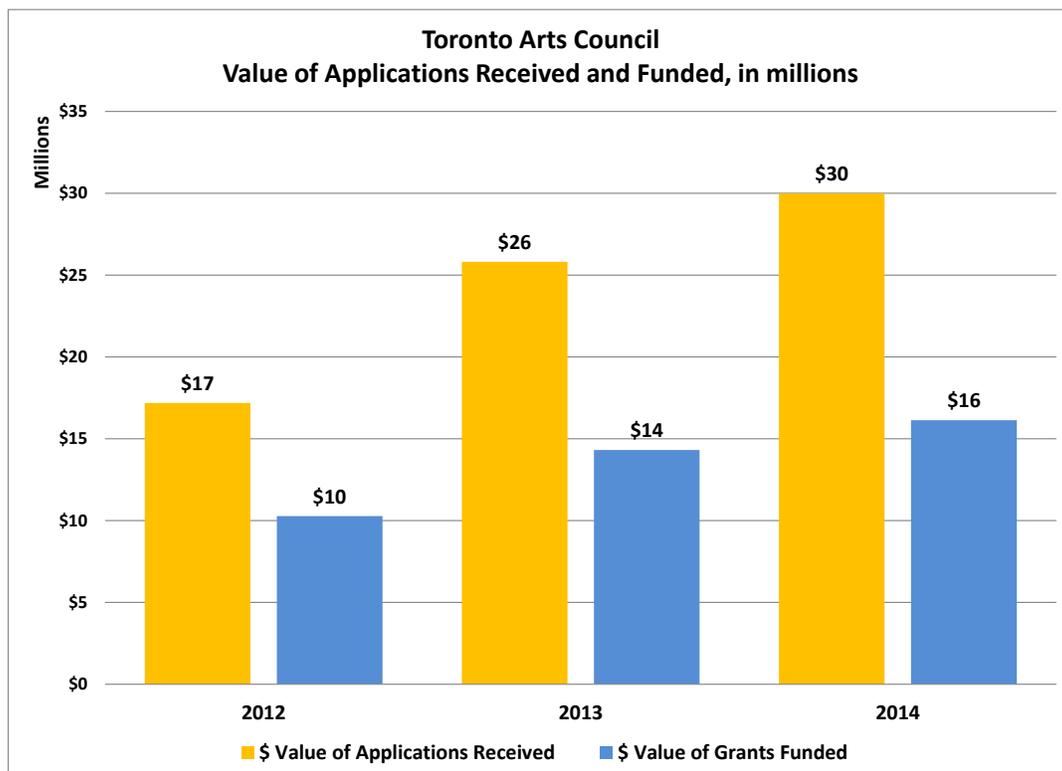

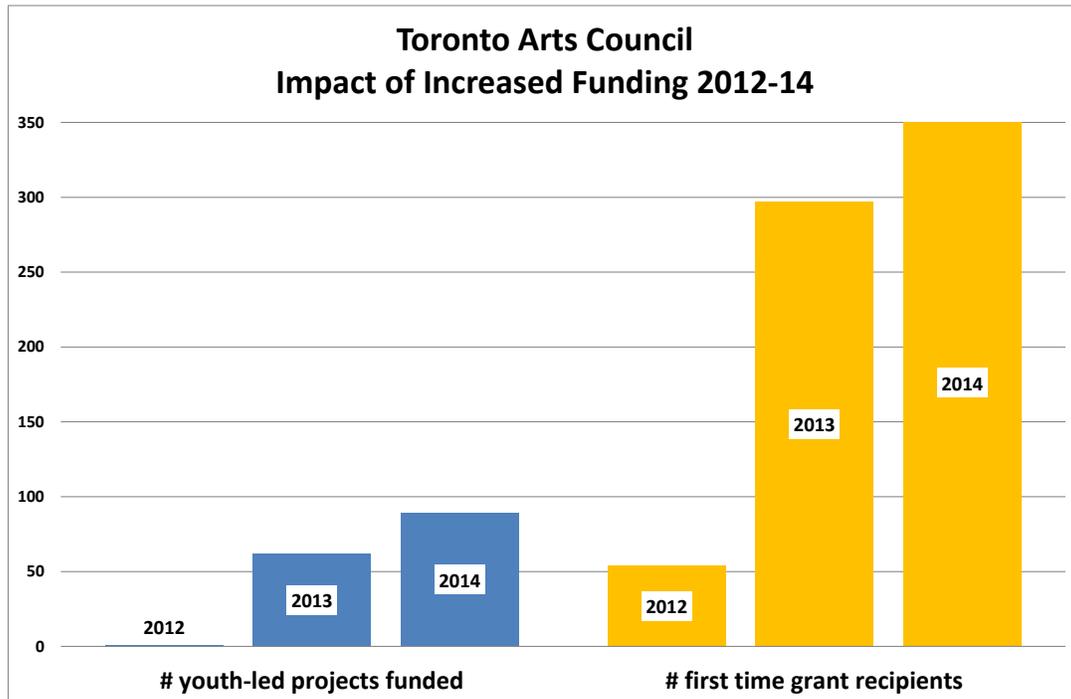

Partnerships continued from 2013:

- ArtsVest – a partnership with Business for the Arts that is providing grants matched by corporate support.
- ArtReach – a partnership with ArtReach Toronto that supported 30 youth led arts projects in 2014.
- Artists in the Schools – a partnership with TDSB and Prologue to the Performing Arts that supports arts programming in Toronto schools.
- Artists in the Library – a partnership with Toronto Public Library supporting arts programming in Toronto libraries outside the downtown core.
- Animating Historic Sites and Museums – a partnership with Toronto Museum Services and the Royal Ontario Museum supporting arts programming in the city's historic sites and the ROM.
- Platform A – a partnership with four organizations located in different areas of the city that offers mentorship, bridging and microgrants to community engaged artists and organizations.
- Pan Am Path – a partnership with Friends of the Pan Am Path that supports community engaged arts programming along the Pan Am Path.

In addition, the Toronto Arts Foundation, TAC's sister organization, invests \$500,000 annually in arts research, networking and community connections which further leverages the impact of TAC's operations funding.

## PRELIMINARY RESULTS OF 2014 INCREASED GRANTS FUNDING

The final impact of increased grants funding will not be evident for two or three years as final reports and financial statements become available. However, early evidence clearly demonstrates a significant impact of increased investment including success levels for first time grant recipients, increased access to funding by youth and newcomer artists and an estimated \$40 million in funds leveraged by TAC grants from other sources.

# STRATEGIC FUNDING 2014

## PARTNERSHIP PROGRAMS

The objectives of these programs are to encourage collaboration between artists and institutions, provide access to space for arts programming, offer opportunities for arts activities outside the downtown core, and to provide leadership opportunities for arts workers.

TAC's partnership programs leverage arts funding with matching funds or in-kind resources. These programs create new opportunities for artists and audiences at the local level, enhance assets that are already available within the community, and build on Toronto's vibrant arts ecology.

### **Animating Historic Sites and Museums \$130,970**

Toronto Arts Council partnered with City of Toronto Museum Services and the Royal Ontario Museum to provide opportunities for artists to re-imagine and animate five Toronto Heritage sites and selected sites within the ROM through engagement with their histories, local contexts, and communities. The heritage sites are Gibson House, Montgomery's Inn, Scarborough Museum, Todmorden Mills, and Zion Schoolhouse, four of which are located outside the downtown core. *Programming Grants* provide opportunities for curators/producers to present a series of programs and events at one of the sites. *Exploration Grants* are smaller grants that provide the opportunity for curators/producers to engage with community, landscape, volunteers and the site itself to explore ideas for future projects. The partners are contributing matching support in the form of space, historical knowledge and research resources, extended hours, staffing, marketing and promotion.

### **Artists in the Library \$200,000**

Toronto Arts Council partnered with Toronto Public Library (TPL) to facilitate the animation of library spaces outside the downtown core, increase arts access in local communities, and create new work and collaborative opportunities for Toronto artists. Due to the interest in the program last year, our investment has doubled and the number of library sites participating has increased from 5 to 10. The branches animated through 2014 funds are Cedarbrae, Don Mills, Downsview, Fairview, Hillcrest, Mimico, Oakwood Village, Richview, Scarborough Civic Centre and York Woods. These community-engaged residencies are in different arts disciplines, and were selected based on branch capacities and local interests and needs. Toronto Public Library is contributing matching support in the form of space, technical support, marketing, promotion, social networking platforms, and staffing.

### **Artists in the Schools \$105,000**

This is a partnership between Toronto District School Board (TDSB), Prologue for the Performing Arts and TAC for a four-week spring festival that includes artist residencies and special arts events. The festival provides students with the opportunity to explore their personal connections to the people, places, histories and happenings of their city through art. TAC funding of this project goes directly to the artists and arts organizations participating in the festival. Festival activities included an Artist Residency Program that had over 50 artists working in schools outside the downtown core. This artist-to-artist mentorship and opportunity created an important dialogue about how to strengthen relationships with teachers, students and administrators, and how artists can support each other in navigating challenges in working in the school system. Key collaborative information and documentation tools were developed that will further support the relationships between artists and teachers, students and parents. TDSB undertook all programming activities and Prologue administered the application process that expanded the TDSB's roster of local artists.

### **TAC Cultural Leaders Lab \$150,000**

This program is a partnership between TAC and the Banff Centre that will provide Toronto arts and culture leaders with the opportunity to participate in an innovative learning process. Participants attended an intensive one-week retreat at The Banff Centre in the first year, and this is being followed by bi-monthly events in Toronto that will continue for the next two years. The key goals of the program are to invigorate and inspire exceptional arts and culture leaders and propel their thinking and activities to the next level; provide an opportunity for professional development, learning and networking from peers across disciplines; develop collaborative solutions to some of the complex challenges facing Toronto's arts and culture sectors; and redefine leadership and its role in building the creative city.

## **STRATEGIC PARTNERSHIPS**

TAC developed a number of high-impact strategic partnerships that directly aligned with our priorities of increasing community, youth, and diverse participant engagement, and of supporting increased growth and sustainability to the arts sector. These partners bring specific expertise to TAC and provide valuable grassroots connections to youth, diverse communities and training platforms. TAC's investment in these partnerships nurture a sense of community ownership and access to TAC's new funding and foster the development of the next generation of arts practitioners and leaders.

### **ArtReach Toronto   \$323,500**

Toronto Arts Council partners with ArtReach Toronto to increase access and opportunities for cultural participation for youth across the City. ArtReach brings its signature high-engagement approach to grant making, which combines mentoring and capacity building assistance for the grant recipients, as well as funding for their projects. Through its established networks which reach youth, it has enabled TAC to streamline the process by which we engage and invest in Toronto's emerging artists, youth and under-served communities.

### **Neighbourhood Arts Network (NAN)   \$100,000**

Toronto Arts Council is a partner with other agencies and organizations for the ongoing development of the Neighbourhood Arts Network (NAN). Launched in 2009 and described as "the place where arts and community engagement meet," NAN has expanded to over 1400 members, including artists, arts organizations, cultural workers and community agencies. From 2012 to 2013, NAN's membership went from 876 to 1212, an increase of 39%, demonstrating the organization's growing position as a hub for the City's community arts sector. The network acts as a catalyst for new discussions and relationships, facilitates capacity building and professional development, collects research and shares information, and facilitates a shared vision around the place of arts in community development. NAN creates new opportunities for emerging and diverse artists through their Vision awards, which recognize artistic excellence and contribution to community, for professional newcomer artists and community-based arts projects, and through extensive partnerships with local arts organizations and festivals on learning, networking and arts animation activities. NAN is an initiative of the Toronto Arts Foundation. Additional partners include BMO, Ontario Trillium Foundation, TELUS, TD Bank Group, Sketch, North LIP, Maytree, CPAMO, Centre for Social Innovation, Humber College, Local Arts Service Organizations, City of Toronto Cultural Services and OCAD and many others.

### **Panamania   \$340,000**

Toronto Arts Council partnered with the Pan Am Festival of Art and Culture to support 16 Toronto organizations for the new works they created for the *Panamania* multidisciplinary arts festival, a high-profile Pan Am initiative that will showcase Toronto as a leading international city of the arts. TAC funding aided the successful execution of these projects, which received national and international exposure.

### **Platform A   (\$300,000 + \$48,000 disbursed as micro-grants)**

*Platform A* is a partnership involving four organizations that have pioneered work in the field of community arts in Toronto: Arts for Children and Youth, Art Starts, Jumbies Theatre, and Sketch: Working Arts for Street and Homeless Youth. The four organizations work in different areas of the city and have distinct engagement practices. The aim of the *Platform A* initiative is to fuse the strengths and experiences of the four organizations to support a shared vision of seeding sustainable, high-quality community arts practice, and providing increased opportunities and access to the arts for youth and communities. The project is creating new opportunities through shared platforms, mentorships, organizational bridge building, and micro-grants and will test new models for collaboration and resource sharing in the youth and community-engaged arts sectors. In 2014 there were 127 applications for micro-grants, of which 57 were funded, ranging from \$500-\$1000 and demonstrating the continued need for seed funding at the community level. A total of 38 mentorships took place as a result of this initiative, including a year-long supported mentorship program, a summer intensive program for youth, leadership skills development for individual artists and organizational mentorships to key emerging organizations. The partners have each reported the positive impact of the Platform A initiative in increasing their capacity to reach and mentor youth, and creating the opportunity to share best practices and increase outreach capacity. Platform A funding has afforded the partners a new level of collaboration in the sector. The group received funding from the Metcalf Foundation to begin exploring the Collective Impact process and have brought in additional collaborators from the sector including Children's Peace Theatre and ArtReach.

## STRATEGIC ALLOCATIONS

### **Friends of the Pan Am Path            \$120,000**

Friends of the Pan Am Path (FOPAP) undertook an ambitious project to create and animate an 80 km trail across Toronto by connecting existing cycle and walking paths. The Path is intended to serve as an active living legacy for the Toronto 2015 Pan/Para Pan Am Games. It will link neighbourhoods and engage diverse communities across the city through opportunities for art, enriched public spaces, tourism and local economic development. The Pan Am Path will provide programming opportunities for artists and arts organizations across the City during TO2015; 11 of the 15 programming zones are located outside the downtown core, with an equitable distribution of opportunities across Wards. 22 large-scale arts projects will take place throughout the path during the Games, across the arts disciplines. TAC's strategic support of FOPAP recognizes the Path as an important arts and culture initiative designed to create new opportunities for community-based arts activities, which will leverage the investment, marketing and participation around the Games to build new audiences for their work.

### **Open Door Process                    \$545,000**

TAC introduced its new *Open Door* process in 2014 as a means of responding to important and timely arts sector initiatives outside of the discipline-specific funding streams. TAC aims to provide catalyst funding for ideas and initiatives that have the potential to create transformative change for artistic disciplines, communities of artists and arts organizations and the arts sector at large. Proposals must demonstrate the potential for impact in the following defined categories: *Market Development, New Models and Innovations, Exceptional Opportunities*.

### **Targeted Enhanced Funding        \$297,000**

TAC provides targeted funding to selected organizations that receive operating grants to support the continuation or expansion of their work with children, youth and/or culturally diverse communities in Toronto, specifically for activities taking place outside the downtown core. These grants are separate from their operating grants and are intended to support the costs of the intensive work involved in this kind of high-engagement work. Activity supported through this funding was delivered in schools, community centres and outdoor spaces in 21 Wards outside the downtown core, in partnerships that utilized existing resources while supporting community and local participation and expression.

## RESCINDED ALLOCATIONS

When an organization is unable to comply with conditions on its funding or is unable to proceed with the project for which it received funding, the allocation is rescinded and the funds added to the current year's budget for disbursement. If the rescinded allocations were awarded in previous years, these funds become added revenue for the current year budget. If the rescinded allocations are part of the current year budget in the first place, there is no increase to the budget when the allocations are rescinded.

### Allocation Year – 2013

Blossom	\$6,000
Broadway from the Block	\$7,500
It Gets Fatter	\$10,000
Organization of Calypso Performing Artistes	\$6,000
Toronto Jewish Folk Choir	\$5,800
Victoria Scholars Men's Choral Ensemble	\$6,600

**Total Rescinded Allocations** **\$41,900**

**Blossom** was recommended a 2013 project grant in the amount of \$6,000 through the ArtReach/TAC partnership program. The project was intended to engage young muslim women from the Mount Denis & Dixon area, but the two project leads were unable to move forward with the project due to changes in their personal circumstances. The TAC Board of Directors rescinded the allocation and added the funds to the 2014 budget.

**Broadway from the Block (Winston Luc)** was recommended a 2013 project grant in the amount of \$7,500 through the ArtReach/TAC partnership program. The project was intended to provide a stage to highlight the talent of youth in the Jane and Finch neighbourhood, but the project lead is unable to move forward with the project due to personal health issues. The TAC Board of Directors rescinded the allocation and added the funds to the 2014 budget.

**It Gets Fatter** was awarded a 2013 project grant in the amount of \$10,000 through the ArtReach/TAC partnership program. This youth-led collective that promotes body positivity and critical awareness of negative body image disorder received the grant for a series of photography, writing and digital storytelling workshops for youth who self-identify as "fat". Despite help from ArtReach, the collective has decided not to move forward with the project and returned the grant. The TAC Board of Directors rescinded the allocation and added the funds to the 2014 budget.

**Organization of Calypso Performing Artistes** was recommended a 2013 Music Project grant in the amount of \$6,000 to produce a 3-concert series at Daniels Spectrum in July 2014. However, the organization cancelled the project due to lack of funds and returned the grant. The TAC Board of Directors rescinded the allocation and added the funds to the 2014 budget.

**Toronto Jewish Folk Choir** was recommended a 2013 Music operating grant in the amount of \$5,800 for their 2013/14 concerts. Release of the grant cheque was delayed because the organization did not fulfill standard conditions, and in December 2013, TAC was informed that the choir had ceased operations. The TAC Board of Directors rescinded the allocation and added the funds to the 2014 budget.

**Victoria Scholars Men's Choral Ensemble** was recommended a reduced 2013 Music operating grant in the amount of \$6,600 to support its 2013/14 activities. This was the final year of funding through the operating program due to the organization's inability to meet administrative requirements. Release of the grant was contingent upon meeting program requirements related to financial reporting, but Victoria Scholars was unable to fulfil the conditions. The TAC Board of Directors rescinded the allocation and added the funds to the 2014 budget.
