#### SUMMARY

---

The purpose of this report is to obtain approval for the removal of an on-street accessible parking space for persons with disabilities.

As the Toronto Transit Commission (TTC) operates a transit service on the subject street, City Council approval of this report is required.

#### RECOMMENDATION

---

**Transportation Services recommends that:**

1. City Council approve the removal of the on-street accessible parking space at the location identified in Appendix A attached to the report dated August 10, 2015, from the Director, Transportation Services, Etobicoke York District.

#### Financial Impact

Funds in the amount of \$300.00 are available within the Transportation Services Division's 2015 Operating Budget.

#### ISSUE BACKGROUND

The Transportation Services Division receives numerous requests for the removal of on-street accessible parking spaces for persons with disabilities. Some of these requests come directly from members of the public and others are received through the local Councillors' offices.

Timely removal of designated on-street accessible parking spaces when these on-street spaces are no longer required is necessary in order to maximize available on-street parking for other residents/motorists.

## **COMMENTS**

Transportation Services staff have investigated the feasibility of removing the on-street accessible parking space at the location identified in Appendix A included in this report. This section of roadway is served by a TTC transit route.

Locations where on-street accessible parking spaces are to be removed are the result of applicants moving, holding expired permits or no longer requiring these on-street parking spaces.
