Creation of Privately Operated Kiosks on Public Rights-of-Way - by Councillor Michelle Berardinetti, seconded by Councillor Gary Crawford

** Notice of this Motion has been given.*

** This Motion is subject to referral to the Public Works and Infrastructure Committee. A two-thirds vote is required to waive referral.*

Recommendations

Councillor Michelle Berardinetti, seconded by Councillor Gary Crawford, recommends that:

1. City Council request the General Manager, Transportation Services to report to the Public Works and Infrastructure Committee on the feasibility of permitting the creation of kiosks on City rights-of-way that offer a variety of services to residents and tourists in line with what is found in other major cities around the world such as New York and Rome.

Summary

In cities across the world, kiosks on municipal property are common and offer a wide variety of services ranging from information for tourists and residents to the sale of products such as maps, newspapers, confectionary products, tour tickets, venue tickets and lottery products. The creation of such kiosks provides tourists and residents with considerable convenience and can potentially provide services such as free water bottle filling stations, city maps and waste disposal bins. These are common public service amenities found in most major cities.
