July 20, 2015

Helene,

I am writing to inform you that Heights has retained Marchessault/Raza as our Public Art consultant for the Lawrence Heights public art program as outlined in the Lawrence Heights Phase 1 District Public Art Plan. Marchessault/Raza a partnership between Dr. Janine Marchessault, and Asad Raza. Dr. Marchessault is a professor and Trudeau Fellow at the School for the Arts, Media, Performance and Design at York University, and is well recognized across Canada for her extensive experience working on urban public art programs. Mr. Raza is a public art researcher, producer, curator, and project manager; as well as a member of the production team for Scotiabank Nuit Blanche in Toronto.

This confirms the commitment made by Heights, at the June 23 TPAC meeting, to retain a public art consultant following the acceptance of the District Public Art Plan by TPAC. With the expressed support from members of the TPAC and an accomplished consultant team, we look forward to the implementation of a world-class public art program at Lawrence Heights.

Regards,

Rick Sole
Project Manager, Development
Heights Development Inc.
