Re: Item NY 3.11 – Installation of Traffic Control Signals – Steeles Avenue West, approximately 350 metres west of Keele Street

We are pleased to see this report coming to the NYCC. The project in question has been coming for a few years and the investment that this project provides is a sign of the growth that this area is starting to attract.

The Dufferin Finch BIA is in full support of this report and wishes to see the project move forward quickly.

We are happy to encourage new development in the neighbourhood and to continue to see growth and opportunity develop for our members.

Sincerely,

Matias de Dovitiis,
Dufferin Finch BIA
