Re: Item PG7.3

Dear Ms. Martins,

Please distribute this email and the attached PDF to all members of the committee.

Dear Chair Shiner & Members of Committee

Edzar Group of Companies has been in operations and located in the Milliken industrial area since 1973.

In May, we outlined our concerns to Planning staff in the attached letter. These concerns remain after reading item PG7.3 the Steeles - Redlea Regeneration Area Study report.

We remain concerned about the impacts to the Milliken industrial area with the introduction of multi-residential developments and specifically, on the existing industrial users.

While I am unable to attend the committee meeting in person, my colleague Mr. Sam Vella will speak on my behalf.

Sincerely,

James Greig
President
