There is no financial cost associated with the recommendations of this report. The stopping and parking regulation signs have already been installed.

ISSUE BACKGROUND

Following public meetings arranged by Councillor Raymond Cho's office with representatives from Alvin Curling Public School and area residents, Transportation Services staff have reviewed the parking issues on Upper Rouge Trail and on Antelope Drive to determine the feasibility of accommodating short term parking in the vicinity of the school. Similarly, as a means to better control traffic in front of this school, temporal turn and through restrictions were reviewed at Antelope Drive and Savanna Drive.

The previously recommended parking, stopping, and turn regulations were adopted by Scarborough Community Council at its meeting on June 17, 2014 (SC33.12). However, the current changes are intended to bring the regulations into conformance with the signs that the community has agreed to and have already been installed.

COMMENTS

The following characteristics describe Upper Rouge Trail and the surrounding area:

- Upper Rouge Trail and Antelope Drive are located north of Sheppard Avenue East and east of Morningside Avenue.
- Upper Rouge Trail and Antelope Drive are two-lane local roads with pavement widths of approximately 8.5 metres.
- The land use on Upper Rouge Trail and on Antelope Drive consists of single family residential dwellings.
- Sidewalks are located on at least one side of Upper Rouge Trail and on Antelope Drive.

The proposed technical amendments to the time period of the stopping regulations on Upper Rouge Trail and on Antelope Drive will be consistent with the signs that have already been installed.
