

Dear Toronto and East York Community Council,

RE: 30 km/h speed limit on residential streets in Toronto & East York Community Council Area

I'm writing as chair of the Toronto and East York Community Council at the request of several members to add to the April 14, 2015 TEYCC meeting agenda an item for discussion concerning a community council wide reduction in speed limit on residential streets from 40km/h to 30km/h.

At its meeting on August 12th, 2014, TEYCC adopted item TE 34.169 from Councillor Josh Matlow, amended by Councillor Gord Perks, which recommended:

The Toronto and East York Community Council requested:

1. *Transportation Services staff to report back to the first Toronto and East York Community Council meeting of the next term of Council on lowering the speed limit to 30 km/h on all local streets and, where possible, collector roads, within areas designated by the City's Official Plan as "Neighbourhood" in the Toronto and East York Community Council area.*

I would recommend that:

“That Toronto and East York Community Council consider the merits of reducing the speed limits of some or all of the [local and or collector] roads within the Toronto and East York Community Council district under the authority already delegated to by City Council.”

Thank you,

Mike Layton
