Chair Mike Layton,  
Toronto & East York Community Council

**Safety study at 1986 & 2000 Queen Street East**

---

The new development at the corner of Bellefair Ave and Queen Street East has caused significant disruptions for residents in the surrounding area. The delivery entrance serving the LCBO and Shoppers Drug Mart has forced large trucks to make a very tight turn on a residential street, often driving onto the curb and stopping traffic. In the interests of keeping pedestrians on Bellefair Ave. safe, a full review of the operation of the loading entrance is required.

Toronto and East York Community Council recommend

*The General Manager of Transportation Services conduct a safety review of the Bellefair Avenue access serving Nos. 1986 and 2000 Queen Street East and report back with any proposed changes in Q1 of 2016.*

Councillor Mary-Margaret McMahon  
Ward 32
