Councillor,

Re: 36 Berryman Street Proposed Demolition and New Home Construction

Please be advised that the ABCRA board of directors passed the following unanimous resolution on February 10, 2015:

It is resolved that the ABC Residents Association strongly supports the Heritage Preservation Guidelines but do not consider that the said Guidelines are intended to prevent the demolition of 36 Berryman Street Toronto and accordingly ABCRA supports the application for demolition.

We therefore support your initiative to seek approval at the April TEYCC meeting for the demolition of this property and its replacement with a new home. You will also be receiving letters and emails of support from a number of individual residents.

Thank you.

John Caliendo
Ian Carmichael

Cc. Mr. Robert Hiscox
