

NEW WARDS FOR TORONTO

Toronto Ward Boundary Review

TORONTO CITY COUNCIL

November 8-10, 2016

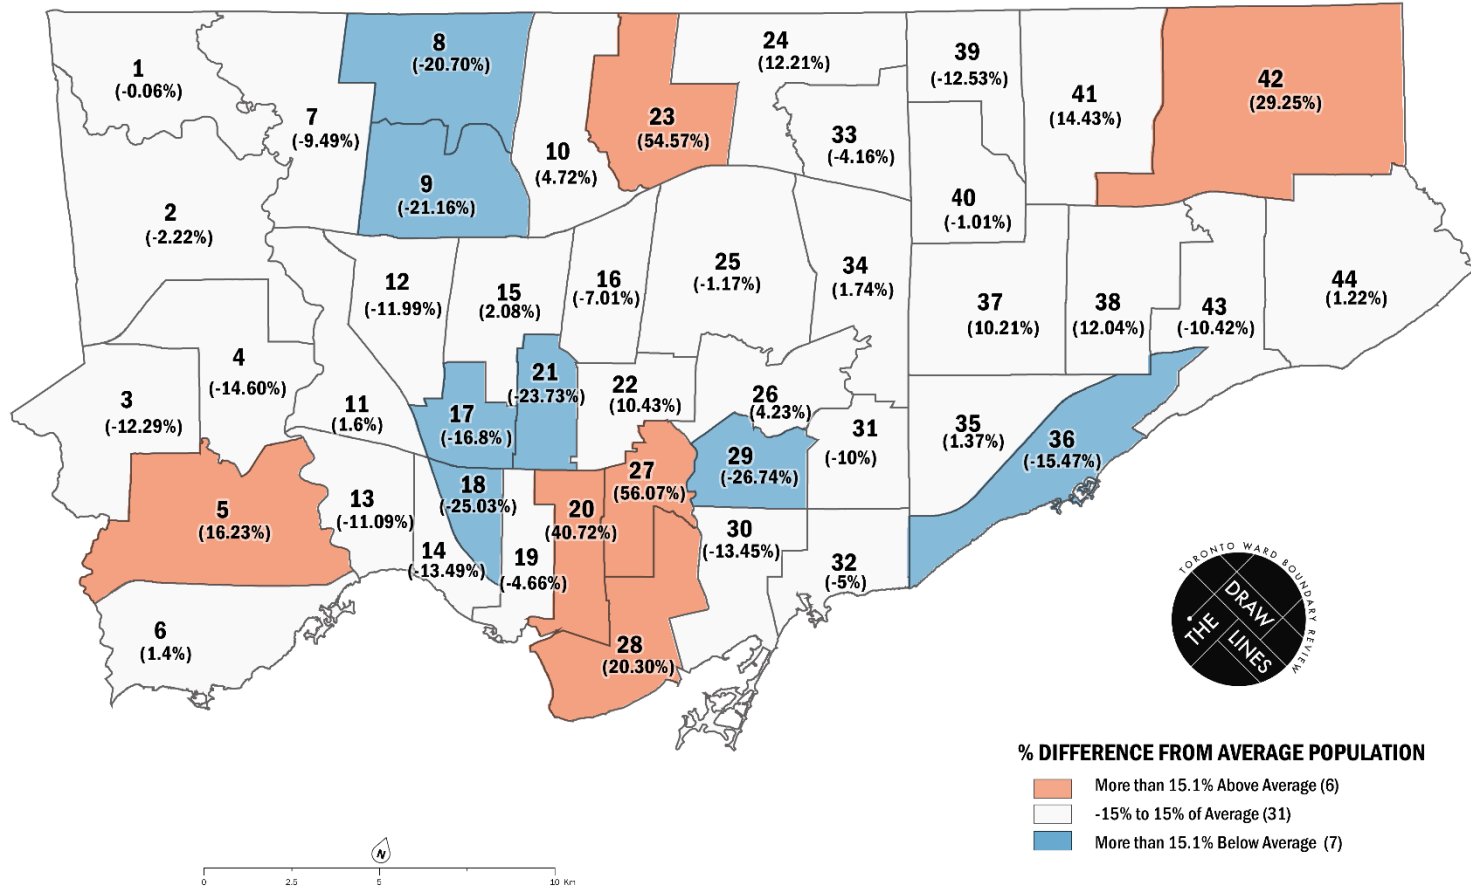

TWBR Context

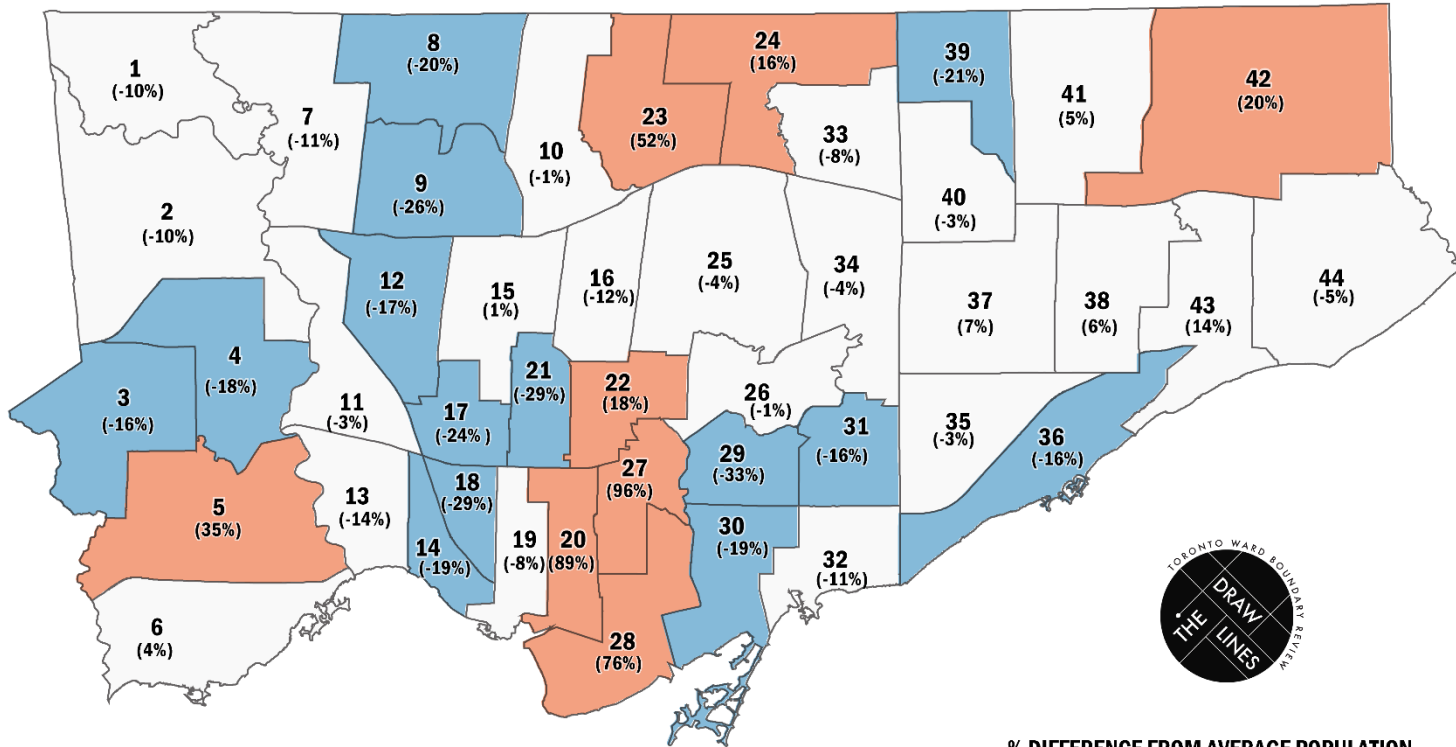

- Toronto's expected population growth from 2011 to 2030: approximately 500,000
- In 2014:
 - average ward population: 61,000
 - smallest ward: 44,400 (7 wards are more than 15.1% below average)
 - largest ward: 94,600 (6 wards are more than 15.1% above average)
- Without changes, in 2026:
 - smallest ward: 44,300 (14 wards are more than 15.1% below average)
 - largest ward: 130,000 (8 wards are more than 15.1% above average)

EXISTING WARDS (2014 PROJECTED POPULATION VARIANCES) TORONTO WARD BOUNDARY REVIEW

EXISTING WARDS (2026 PROJECTED POPULATION VARIANCES) TORONTO WARD BOUNDARY REVIEW

% DIFFERENCE FROM AVERAGE POPULATION

- More than 15.1% Above Average (8)
- 15% to 15% of Average (22)
- More than 15.1% Below Average (14)

TWBR Context

- Wards have not been reviewed since 2000
- In June 2013, City Council directed third-party review
- In June 2014, City Council approved the TWBR Work Plan and Public Engagement and Consultation Strategy led by TWBR team (Canadian Urban Institute (CUI), Beate Bowron Etcetera, The Davidson Group & Thomas Ostler)
- The project's Terms of Reference included achieving **effective representation** for 3 and, possibly, 4 municipal elections

TWBR Context

Effective Representation:

- Set out by the Supreme Court of Canada and followed by the Ontario Municipal Board (OMB) for ward boundary reviews
- Several components:
 - Achieving voter parity (based on population not electors)
 - Keeping together geographic communities of interest
 - Following natural and physical boundaries
 - Respecting ward history
 - Considering ‘capacity to represent’

TWBR Context

- 3 most important components of ***effective representation***:
 - Voter parity
 - Geographic communities of interest
 - Natural and physical boundaries
- Voter parity is pivotal
 - Derives from Charter Right-To-Vote
 - Weight of all votes should be similar (not just at election time but every time Council votes)
 - OMB allows growth to be incorporated in determining voter parity (e.g. fast growing wards can start smaller, as long as they grow into voter parity)

TWBR Context

- How much can ward populations differ:
 - +/-10% is gold standard (=20% difference)
 - +/-15% also possible (=30% difference) to keep neighbourhoods together/maintain clear boundaries
 - Above or below 15% only if ward is expected to grow into range or is stable/will get closer to average over time
 - Above or below 20% problematic (below 20% only if city has rural areas)

TWBR Context

- Ward boundary reviews:
 - Establish an average ward population (e.g. 70,000 – 44 wards; 61,000 – 47 wards)
 - Set the voter parity range (+/-10%; +/-15%) around the average ward population
- “Draw the Lines” while balancing ***effective representation*** components
- Toronto’s new ward structure to last for: 2018, 2022, 2026, 2030 elections
- Target year for voter parity: 2026

TWBR Step-By-Step

- Work Plan (approved by Council June 2014)
- Research Report
- Round One public consultation (July 2014 – Jan 2015)
- Options Report (Aug 2015)
- Round Two public consultation (Aug – Nov 2015)
- Final Report (May 2016)
- Additional Information Report (Aug 2016)
- Supplementary Report (October 2016)

TWBR Public Engagement

- Extensive public consultation process
- Two Rounds plus additional round
- Website; advertising; media releases; social media (Facebook, Twitter, e-news); branding
- Consistent with other wards boundary reviews
- Accepted by the OMB

TWBR Public Consultation

CONSULTATION

ROUND 1

Public Meetings	192
Survey	608
Members of Council	51 (44 plus 7 new)
Total Round 1:	851

ROUND 2

Public Meetings	112
Survey	717
Submissions	15
Members of Council	43
Total Round 2:	887

ADDITIONAL OPTIONS

Public Meetings	90
Survey	485
Members of Council	38
Total Additional Options:	613

TOTAL PARTICIPATION WHOLE PROCESS: 2,352

TWBR Public Consultation

CONSULTATION

- 2752 contacts on TWBR distribution list
- 2412 direct participants
- 516 social media contacts
- 351 posts on the TWBR social media twitter account @DrawtheLinesTO
- 1711 average monthly visits to the drawthelines.ca website
- 297 posters in public library branches
- 141 face-to-face meetings (inc. Members of Council, School Boards & others)
- 80 advertisements (mix of online and print)
- 29 of public meetings and information sessions
- 20 maps posted to the drawthelines.ca website
- 16 e-news issued to the TWBR distribution list
- 12 media releases
- 9 reports available on the drawthelines.ca website
- 1 webinar
- 3 Advisory Panel Meetings (panel with expertise in municipal law, business, academe, civil society research and the OMB).

Executive Committee, May 24, 2016

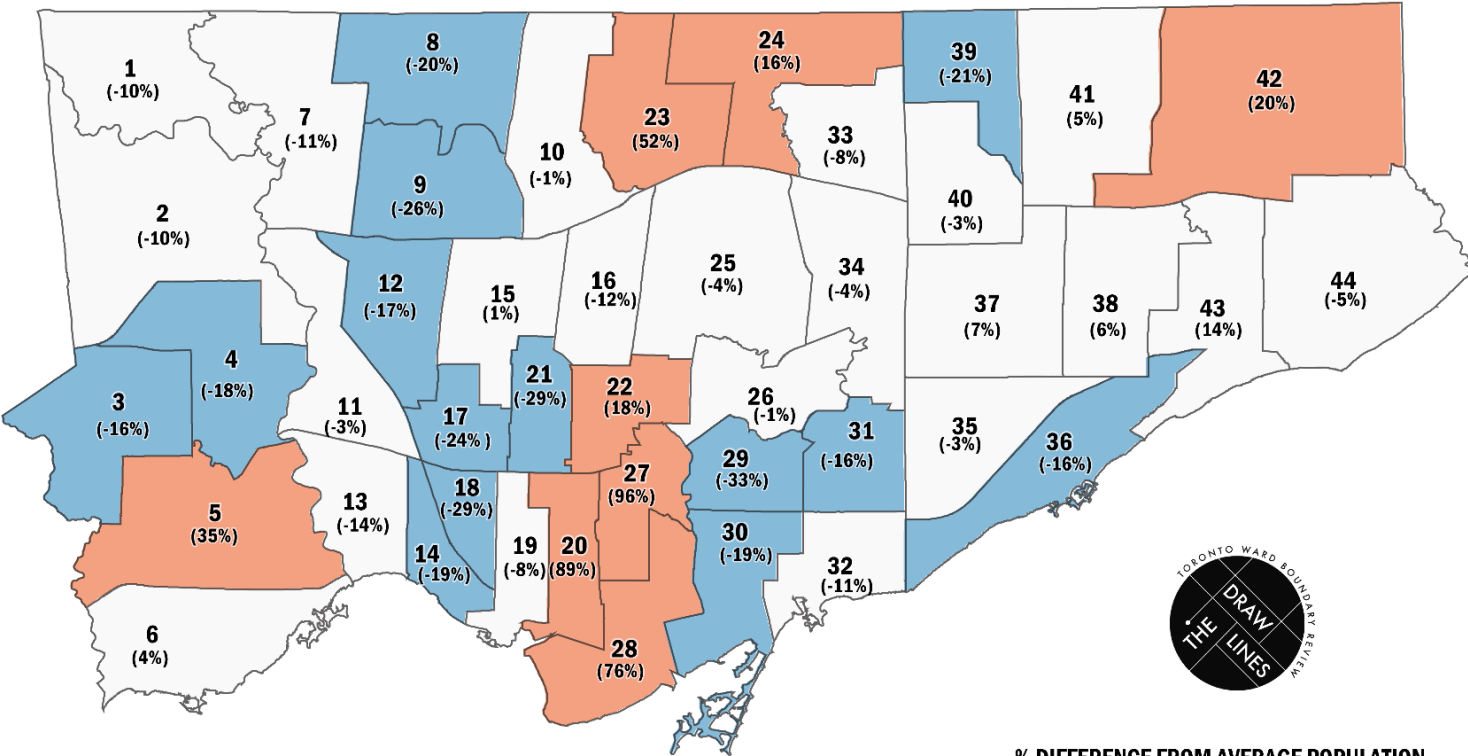

- Information requested on four items plus public and Council consultations
 1. Review of Option 1 (47 wards) focusing on largest wards only
 2. Option 2 (44 wards) incorporating suggested refinements from 2015
 3. Option consistent with federal/provincial riding boundaries
 4. Additional refinements to recommended ward structure (47 Wards)
- Preference for maintaining Community Council/historic boundaries

Focus on Large Wards Only

- Focusing only on Toronto's existing large wards does not produce an option that can achieve **effective representation** nor reduce the number of wards below 47
 - Takes four additional wards to adjust 4 largest wards
 - 3 Downtown and 1 in Willowdale (Wards 20, 27, 28, 23)
 - 4 other large wards not reduced (Wards 5, 22, 24, 42)
 - 14 smaller wards still need to be enlarged (Wards 3, 4, 8, 9, 12, 14, 17, 18, 21, 29, 30, 31, 36, 39)

% DIFFERENCE FROM AVERAGE POPULATION

- More than 15.1% Above Average (8)
- 15% to 15% of Average (22)
- More than 15.1% Below Average (14)

Refinements to 44 Wards

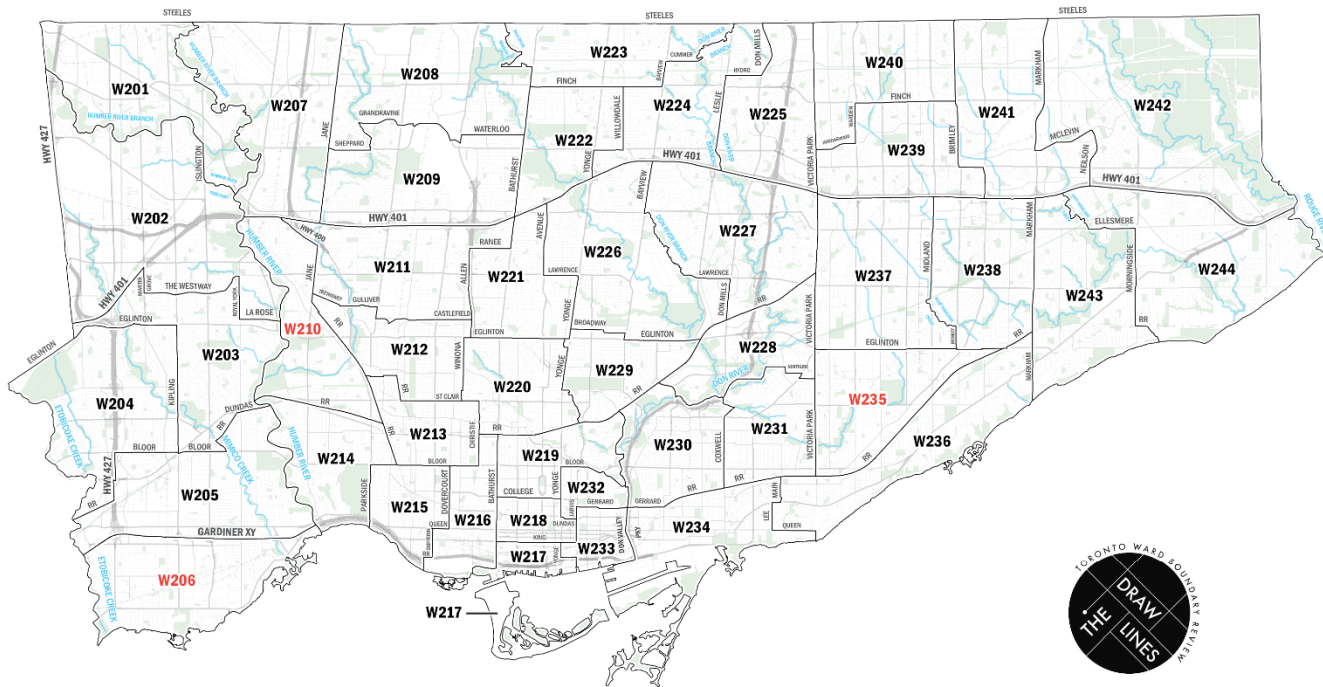

- Refinements suggested during 2015 and September 2016 public involvement process
- **Those who like this option note:**
 - retains current size of City Council
 - keeps certain communities intact (e.g. Regent Park; Church-Wellesley Village; West Toronto Junction)
- **Those who have concerns note:**
 - large amount of change to existing ward boundaries
 - reduced 'capacity to represent'
 - division of certain communities (e.g. Lawrence Heights; Flemingdon Park; Leaside; The Beach)
 - Current Wards 10 and 32 disappear
 - current Wards 14, 17, 18 become 2 wards

Refinements to 44 Wards

- 3 wards unchanged
- Revised 44-ward map achieves ***effective representation***
 - Some wards start out small (W203; W205; W217; W218; W229; W233; W236)
 - All achieve voter parity by 2026
 - Significant number of communities of interest are split

MAP 3: ADDITIONAL REVISIONS - OPTION 2 (44 WARDS) TORONTO WARD BOUNDARY REVIEW

NUMBER OF WARDS

Consistency with Federal Riding Boundaries

- Requires 26 wards
- 1 additional ward Downtown
- Boundary adjustment in Etobicoke needed
- 2 Etobicoke wards still too large, further adjustment would require crossing the Humber River (natural boundary) and changes in adjacent federal riding boundaries
- Some support from surveys; minimal support from public meetings/Members of Council

Recommended Wards (47 Wards)

- Downtown wards remain within the boundary of the Downtown (as defined in the Official Plan)
- Public meetings and Members of Council suggested refinements
- **Those who like the option note:**
 - minimizes change
 - best option of the 3
 - keeps communities of interest together (e.g. Leaside, The Beach)
- **Those who have concerns note:**
 - increases size of City Council
 - splits certain communities (e.g. Regent Park, Church-Wellesley Village; Sentinel community)

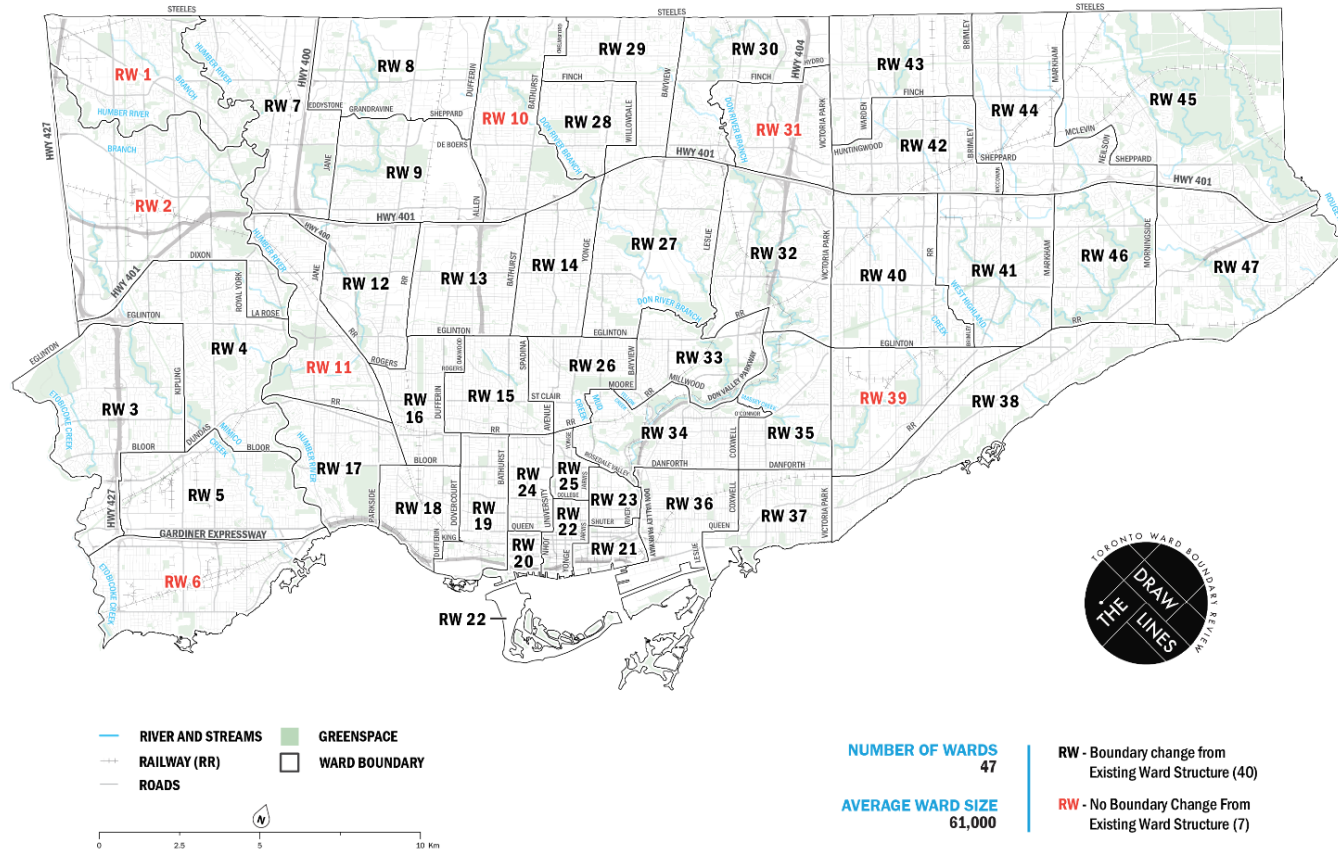

Recommended Wards (47 Wards)

- Further refinements have reunited Sentinel community; Regent Park; Church-Wellesley Village
- 7 wards unchanged
- Revised map achieves ***effective representation***
 - Some wards start out small (RW9; RW20; RW21; RW22; RW24)
 - All achieve voter parity by 2026
 - Fewer communities of interest are split

The **Recommended Wards with Refinements (47 Wards)** is an improvement to the TWBR Recommended Wards (47 Wards). In addition to achieving voter parity, it manages to keep many communities of interest together and has coherent ward boundaries.

The Recommended Wards with Refinements (47 Wards) is the TWBR Team's recommendation.
