**Subject:** Motion to register non-profits as lobbyists

Clerk,

Should this motion requiring the not-for-profit sector pass City Council, it will act as a barrier to volunteers in the sector from accessing the decision-making process.

This requirement certainly should not apply to not-for-profit groups and residents associations that are only trying to make our city a better place to live and work.

We urge Council to vote against this motion, which would help ensure continued active engagement by the not-for-profit sector in municipal affairs.

Thank you,

Michael Landry  
President  
Greater Yorkville Residents' Association (GYRA)
