#### SUMMARY

On October 20, 2015, staff provided Executive Committee with an information update on key components of the SmartTrack Work Plan ([EX9.1 SmartTrack Status Update Report](#)). Staff indicated that a report with recommendations on SmartTrack would be brought forward in the first quarter of 2016.

This report provides notification that the City Manager will be providing a report on developing a transit network plan for Toronto that will include an update and recommendations on the following transit projects: SmartTrack, Relief Line, Waterfront Transit, and the Scarborough transit plan (as proposed in [EX11.5 Scarborough Transit Planning Update](#)).

Additional time has been required to complete this report due to public consultation currently underway, and to ensure proper consultation and collaboration across City Divisions, the Toronto Transit Commission, Metrolinx and the Province of Ontario.
