Subject: Proposed Ward Boundary Changes

Hi Anthony:

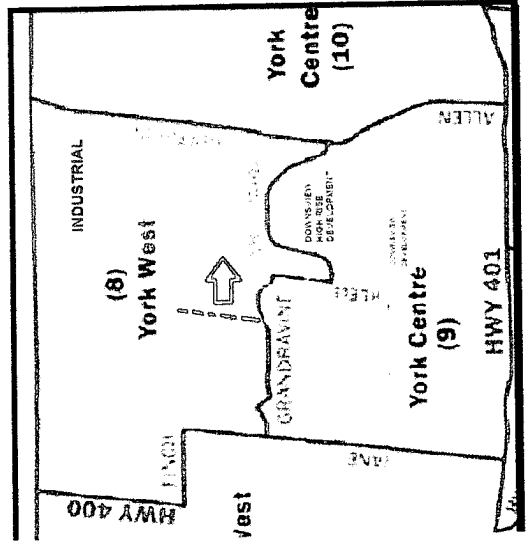

I note that there is a consultant report before the Executive committee this week that is suggesting new boundaries for Ward 8. It appears that the idea is to shrink ward 8 and enlarge ward 9. The proposal is to rip my neighbourhood out of ward 8 and attach it to ward 9. As a long time resident I object to the proposed change which makes no sense whatsoever. The consultant who wrote this report failed to take into account the growth projections for the Downsview Park Lands which will itself substantially add to the population of ward 9. The development has already started.

There is no valid reason to rip my community in half and try to artificially orient this neighbourhood to an area to which it has no connection. Because of the presence of the industrial area to the east we would be an isolated community with no connection to ward 9. The adjustment is totally unnecessary.

Please bring this to the attention of the Executive Committee. Thanks

Howard Moscoe
