

October 5, 2015

Chair and Members,  
Etobicoke York Community Council

**Re: Homes on Weston Road between Wilson Avenue and Bradstock Road**

At its meeting of June 16, 2015, Etobicoke York Community Council considered Item EY7.52, headed "Homes on Weston Road between Wilson Avenue and Bradstock Avenue". A number of homes on this portion of Weston Road had received violation notices relating to driveway widths. The Community Council, among other things, requested staff to report on options to bring these driveways into compliance.

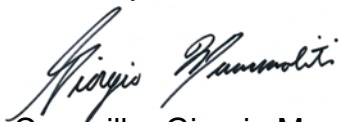

City staff have conducted a preliminary investigation of non-conforming driveways on this portion of Weston Road. Accordingly, I would like to re-open the June 16, 2015 decision of the Community Council, and instead request City staff work to with property owners to bring these driveways into compliance.

**RECOMMENDATIONS:**

1. Re-open Item EY7.52, headed "Homes on Weston Road between Wilson Avenue and Bradstock Avenue", adopted by Etobicoke York Community Council on June 16, 2015.
2. Rescind the request for a report on this issue from City Planning, in consultation with Municipal Licensing and Standards.
3. Adopt the following:

Etobicoke York Community Council direct City staff to assist individual property owners who are seeking to bring non-complying driveways into compliance either through physical alterations of the driveways or obtaining minor variances through the Committee of Adjustment.

Sincerely,

Councillor Giorgio Mammoliti, York West  
– Ward 7
