SUMMARY

The purpose of this report is to obtain approval for the installation of an on-street accessible parking space for persons with disabilities.

As the Toronto Transit Commission (TTC) operates transit service on the subject streets, City Council approval of this report is required.

RECOMMENDATION

Transportation Services recommends that:

1. City Council authorize the installation of an on-street accessible parking space at the location identified in Appendix A attached to the report dated September 21, 2016, from the Director, Transportation Services, Etobicoke York District.

Financial Impact

Funds in the amount of \$300.00 are available within the Transportation Services Division's 2016 Operating Budget.

ISSUE BACKGROUND

The Transportation Services Division receives numerous requests for the installation/removal of on-street accessible parking spaces for persons with disabilities. Some of these requests come directly from members of the public and others are received through the local Councillors' offices.

The installation of designated on-street accessible parking spaces is a convenience provided for persons with disabilities and/or those who transport them, making it easier for them to find available parking as near as possible to their places of residence or intended destinations and reducing the distances that the disabled persons must walk. Delays in installing these on-street accessible spaces may create hardships for disabled applicants.

COMMENTS

Transportation Services staff have investigated the feasibility of installing an on-street accessible parking space at the location identified in Appendix A included in this report. These sections of roadway are served by TTC transit routes.

For locations where on-street accessible parking spaces are being established, all applicants are holders of valid Accessible Parking Permits issued by the Ministry of Transportation and each designated space will not result in the loss of more than one on-street parking space for general use.
