## COMMENTS

---

The subject property is located west of Yonge Street and north of Finch Avenue West. The applicant proposes to sever the subject property, with a frontage of 66 feet (20.12 metres) and a lot area of 1,209.82 square metres into two lots, each having a frontage of 33 feet (10.06 metres) and lot area of 604.91 square metres. The applicant further proposes to construct a two-storey detached dwelling on each of the proposed lots.

The property is designated *Neighbourhoods* in the Toronto Official Plan. *Neighbourhoods* are considered to be stable areas. However, the Official Plan recognizes that *Neighbourhoods* are not static, meaning there will be change in these areas. Physical changes are expected to occur within these areas, in the form of enhancements, additions, and infill housing. Development within *Neighbourhoods* will respect and reinforce the existing physical character of buildings, lot sizes, streetscapes and open space patterns in these areas.

Policy 4.1.5 of the Official Plan outlines development criteria for established *Neighbourhoods*. Development in established *Neighbourhoods* will respect and reinforce the existing physical character of the area with regard to:

- b) Size and configuration of lots.

The Plan affirms that no changes will be made with respect to rezoning, minor variance, consent or other public action that are not in keeping with the physical character of the neighbourhood.

The subject property is zoned R4 in the former City of North York By-law No. 7625, as amended, and City of Toronto Zoning By-law RD (f15.0; a550)(x5). Under these zoning designations, a minimum lot frontage and width of 15 metres and a lot area of 550 square metres is required. The objective of the Zoning By-law is to establish specific standards as to how land is developed. Requirements for minimum lot frontage and lot area are devised to achieve more consistent lot patterns and built form streetscapes.

### Lot Study

Planning staff conducted analyses of the lot frontages, depths and areas of 500 lots in the area generally bounded by Caines Avenue to the north, Charlton Boulevard to the south, Fairchild Avenue to the east, and Chelmsford Avenue and Grantbrook Street to the west. The properties within this study area are zoned R4 in North York Zoning By-law No. 7625.

The lot study indicates that 468 properties, or approximately 94% of lots, meet or exceed the minimum requirements for lot area and lot frontage, as required by Zoning By-law No. 569-2013 and Zoning By-law No. 7625. The character of the neighbourhood is defined by lots with areas of 550 square metres or greater and frontages of 15 metres or greater, as measured according to Zoning By-law No. 7625. Of the 500 lots studied, only four properties have frontages equal to or less than 10.1 metres. The completed lot study is included as an attachment to this report.

### Recommendation

Planning staff are of the opinion that the subject lot in its current form maintains and reinforces the general physical character of the neighbourhood. The suitability of the land for the purposes for which it is to be subdivided has not been demonstrated by the proposal. Approval of a severance on a lot this size could risk weakening the character of this neighbourhood. Therefore, Planning staff recommends that Applications Nos. B0072/15NY, A1138/15NY and A1139/15NY be refused as the proposal does not respect and reinforce the existing physical character of the neighbourhood.

Respectfully submitted,
