Re: **Master Plan Proposal for the Vale of Avoca Ravine**

Dear Parks and Environment Committees,

This letter is written from the North Rosedale Residents' Association, an adjacent RA to the Vale of Avoca ravine, in support of the Summerhill Residents' Association and the Moore Park Residents' Association's **Master Plan Proposal for the Vale of Avoca Ravine**. Although many ravines in central Toronto have suffered the ill effects of extreme weather events over the past few years, the erosion and destruction of infrastructure in the Vale of Avoca is extreme. As such, this well-trodden pedestrian and bicycling route is now unsafe and prone to even more costly destruction in the absence appropriate and immediate remediation. On behalf of the residents of North Rosedale, please take this important proposal for a Master Plan leading to remediation seriously.

Sincerely,

Lewis Reford  
President, North Rosedale Residents Association  
c. 416-399-2274
