Hi All,

I support street murals as it shows creativity and vibrancy of the people of Toronto. I remember when I was in grade school my class was given a tulip to paint that would be displayed along the south end of Royal York. I remember the pride I had to show off the tulip that I dedicated my time, and I thought I did well at. I remember showing my family and friends the tulip as we drove by.

I think that this initiative would be beneficial as it would give others the same opportunity.
