Please support bi-directional cycle track on Lake Shore Blvd W at Royal York Rd

A significant number of us here at Engage myself included commute into the city by bicycle year round, Bike lanes make sense as they are environmentally friendly, and reduce auto congestion, but more then that its the responsibility of our government to protect us citizens. Far too many citizens of this great city are being killed or injured due to unsafe conditions for citizen cyclists.

One life lost is one too many, Sue Trainor should not have died, you have the power to save a life, prevent this from ever happening again!

I have included images from the ground floor parking at our offices at 901 king street, these are all people who opted to pedal rather than drive to work, these are your constituents, citizens under your stewardship who rely on your good judgement to protect them and their families, please do the right thing and support this proposal for support bi-directional cycle track on Lake Shore Blvd W at Royal York Rd.

Thank You
Mend Stern
