Hi....

Over the last several weeks, several cyclists have been injured by cars. One of those cyclists is my son (he is fine now). We have the ability to prevent that. One injury is too many. Every injury is avoidable. The faster that the implementation of Toronto’s bicycle plan is implemented, the lower the number of injuries we will have. Spend the $25 million a year over 6-7 years, instead of doing less over a longer period of time. The benefits are immediate.

Thank you.

Rav Sean Gorman
