Subject: Appeal to the Sign Variance Committee - 20 Wellington Street East and 88 Scott Street

Hi Tom,

Thanks for bringing me up to date on the signage that Concert is proposing on their building presently under construction at 20 Wellington Street East and 88 Scott Street.

BOO as the main commercial tenant is very reputable Canadian financial and tax company and should be encouraged to locate in our neighbourhood. The signage on the upper floor of the podium is appropriate for the major tenant of a commercial building in the downtown area. As we discussed, grade-related signage for the main floor tenants should not encroach into the public area nor should it negatively impact or restrict pedestrians.

The plans that you forwarded to me confirm that the signage is on Concert's property and pedestrians will not be negatively affected by this proposal. The address identifier for 20 Wellington Street East attached to the overhead pedestrian protection is appropriate as shown on the plans. In addition, the signage designer has used materials and modern font style that ties well into the texture of the re-purposed stone siding of the podium.

I've copied Morgan Smyth and Marcus Little into this e-mail for their information and/or comments. Both are residents of Wellington Street East. Morgan is the president of our condominium board and Marcus is on the board of the St. Lawrence Neighbourhood Association.

If you need any more information, please let me know. Please make this e-mail available to Councillor McConnell and the Sign Appeal Committee if you feel it is helpful.

Dennis Glasgow
