Motion to Scarborough Community Council to be submitted by Councillor Gary Crawford and seconded by Councillor Raymond Cho on April 5, 2016

Recommendations

Councillor Gary Crawford recommends that:

1. Scarborough Community Council request Transportation Services to report back to Scarborough Community Council at its meeting of May 10, 2016 on the various long term residential overnight on-street parking options available to Scarborough residents and the feasibility of establishing a 2 year residential overnight on-street parking pilot project comprising of Ward 42 which is bounded by Steeles Avenue East to the north, Pickering Town Line to the east, Twyn Rivers Drive, Sheppard Avenue East, Conlins Road and Highway 401 East to the south, McCowan Road, Sheppard Avenue East and Markham Road to the west.

Background

In recent years there has been an increase in demand from residents of various streets within the Scarborough area and in particular Ward 42 to allow for residential overnight parking in order to accommodate their long term parking needs without being subject to tagging by Parking Enforcement Officers.

This motion seeks Scarborough Community Council approval to request Transportation Services to provide community council with a report on the various residential on-street long term parking options available to Scarborough residents and the feasibility of establishing a 2 year pilot in Ward 42.

Sincerely,

Gary Crawford
Councillor, Ward 36
Scarborough Southwest
