| Date: | May 25, 2016 |
| To: | Scarborough Community Council |
| From: | Director, Transportation Services, Scarborough District |
| Wards: | Ward 42 – Scarborough-Rouge River |
| Reference Number: | P:\2016 \Cluster B\TRA\Scarborough\sc1643.docx D16-7572368 Murison Boulevard & Milner Avenue – Compulsory Turns |

SUMMARY

This staff report is about a matter that Community Council has delegated authority from City Council to make a final decision.

This report recommends that an entry prohibited regulation be changed to a compulsory turn regulation for Murison Boulevard at Milner Avenue in order to be consistent with the existing signage.

RECOMMENDATIONS

Transportation Services recommends that Scarborough Community Council:

1. Rescind the entry prohibition in effect at all times from the east driveway from the Milner Properties site located on the south side of Milner Avenue, opposite Murison Boulevard, to Murison Boulevard, north of Milner Avenue.
2. Prohibit through movements at all times to Murison Boulevard, north of Milner Avenue, from the private access on the south side of Milner Avenue, opposite Murison Boulevard.

Financial Impact

There would be no financial impact associated with this report.

ISSUE BACKGROUND

As part of a review, staff have determined that while the on-street signage is correct in prohibiting northbound through movements at this location, the regulation enacted in 1998 was for an entry prohibition instead of the required through movement prohibition.

COMMENTS

The following characteristics describe Murison Boulevard and Milner Avenue:

- This intersection is located west of Morningside Avenue and south of Sheppard Avenue East.
- Milner Avenue is a four-lane minor arterial road with a regulatory speed limit of 50 km/h.
- Murison Boulevard is a two-lane collector road with a regulatory speed limit of 40 km/h.
- Murison Boulevard provides residential access between Milner Avenue and Sheppard Avenue East.
- The land uses in this area are a retail development, single family residential dwellings, and a school.
- The south approach of this intersection, a private driveway, provides the most easterly access to/from a retail use and Milner Avenue.

The by-law amendments, which require motorists existing this driveway to turn left or right onto Milner Avenue, will allow the existing northbound through prohibition from the retail use to the residential area to be enforceable.
