COMMENTS

As a result of an operational review, Transportation Services staff reviewed the existing Heavy Vehicles Prohibition on the section of Warden Avenue between Danforth Avenue and Kingston Road.

The following characteristics describe the subject section of Warden Avenue:

- Warden Avenue is a north-south roadway and classified as a Minor Arterial road.
- The pavement width is approximately 15 metres.
- A railway bridge is located on this section of Warden Avenue between Danforth Avenue and Clonmore Drive.
- The land uses on this section of roadway is a mix of residential, commercial and railway uses.
- There are sidewalks on both sides of Warden Avenue.
- There are two TTC service routes along Warden Avenue.

The current regulations have an overlapping Heavy Vehicles Prohibition at all times with a nightly-only prohibition from Clonmore Drive to Kingston Road. The proposed amendments will clarify the regulations to ban heavy vehicles at all times from Clonmore Drive to Kingston Road, while only banning them from 7:00 p.m. to 7:00 a.m. nightly on Warden Avenue from Danforth Avenue to Clonmore Drive.
